

# The Core Four

## Take Action!

Practicing these four core safety messages may save your life.

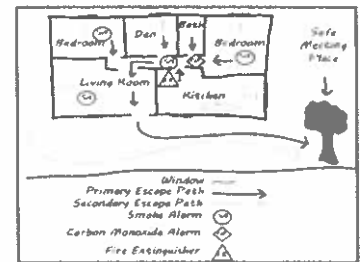

### 1. Right Alarm - Right Location

The right type of alarm placed in the right location in your home.

### 2. Fire Drill Plans and Prep

Practice a fire drill at home, sleep with your bedroom doors closed, and have fire extinguishers in their proper place.

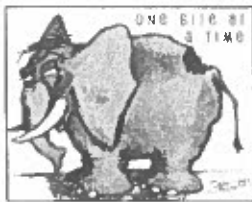

### 3. Fire Sprinklers Save Lives

Properly installed and maintained fire sprinklers save lives.

### 4. See a Problem - Take Action

Take action when you see a problem.  
Don't ignore safety issues.
