

THE N.A. PROGRAM

NA's self-titled pamphlet, known among members as "the White Booklet", describes Narcotics Anonymous this way:

"NA is a nonprofit fellowship or society of men and women for whom drugs had become a major problem. We meet regularly to help each other stay clean. We are not interested in what or how much you used but only in what you want to do about your problem and how we can help."

Membership is open to all addicts, regardless of the particular drug or combination of drugs used. When adapting AA's First Step, the word "addiction" was substituted for "alcohol", thus removing drug-specific language and reflecting the "disease concept" of addiction. Narcotics Anonymous provides a recovery process and peer support network that are linked together. One of the keys to NA's success is the therapeutic value of addicts working with other addicts. Members share their successes and challenges in overcoming active addiction and living drug-free, productive lives through the application of the principles contained within the Twelve Steps and Twelve Traditions of NA. These principles are the core of the Narcotics Anonymous recovery program.

Narcotics Anonymous itself is a non-religious program of recovery; each member is encouraged to cultivate an individual understanding - religious or not - of the spiritual principles and apply these principles to everyday life.

In Narcotics Anonymous, members are encouraged to comply with complete abstinence from all drugs including alcohol. It has been the experience of NA members that complete and continuous abstinence provides the best foundation for recovery and personal growth. NA as a whole has no opinion on outside issues, including prescribed medications. Use of psychiatric medication and other medically indicated drugs prescribed by a physician and taken under medical supervision is not seen as compromising a person's recovery in NA.

STEP ONE

"We admitted we were powerless over addiction and our lives had become unmanageable."

A "first" of anything is a beginning, and so it is with the steps. The First Step is the beginning of the recovery process. The healing starts here.

Many of us have tried to stop using on sheer willpower. This action was a temporary solution. We saw that willpower alone would not work for any length of time.

Our experience shows that it is necessary for us to be willing to do anything it takes to obtain this precious gift of recovery. In recovery, we will be introduced to spiritual principles such as *surrender, honesty, and acceptance* required for the First Step. If we faithfully practice these principles, they will transform our perceptions and the way we live our lives.

By honestly looking at what we have become in our addiction, we recognize the powerlessness and unmanageability in our lives. Moving beyond our reservations, we accept our addiction, surrender, and experience the hope that recovery offers.

We realize that we can no longer go on as we have been.

We are ready for a change.

We are willing to try another way.
