

# WOODFIRED PIZZA

*Our woodfired pizzas are a world apart from a traditional oven baked pizza. First, they are made with our own hand tossed crust and topped with a wide variety of delicious, fresh from the garden or imported toppings. Then, they bake for just two minutes in our authentic wood fired oven where the temperatures build up to 800 degrees. This gives you an authentic pizza just like they sell in the many trattorias all over southern Italy.*
