

# 100% All Natural Tropical Jams

**Jam will never be the same!**

## About Que Rico

Que Rico Delights was founded by Mery Lopez-Palma, a Cuban native with strong roots in the Latin community and generations of Cuban relatives that have passed down the recipes from generation to generation.

As an immigrant to the US, I value and appreciate the great opportunities handed to me. Now I am blessed to have an opportunity to touch every family through the love of food.

It has been a dream and endeavor for Mery to be a cross over consumer product company in the U.S. and be known as an ethnic company in the rest of Latin America.

The company will focus on natural, wholesome foods for your body. It will utilize inspiring Latin imagery and flavors that will bring families memories of early childhood.

In every bite of our tropical artisanal jams, you will find chunks of real fruit that will entice your palette. From our family to yours, "Que Rico is So Good..."
