like the pretend injuries that never happened at Sandy Hook, Las Vegas shooting was not a random event. it hasn't been determined if a lot of paid actors were part of the injured.

this Las Vegas shooting was planned. [not very well], based on impossible sources of shots. similar to the JFK killing and like 9/11 when a lot of innocent folks were murdered by elements of the United States' government. a lot of innocent tourists were killed . so sad. love all

It sounded so real and believable when the news first came in. The public reaction was just what you'd expect. It's two days later and it's still the only news on NPR. I don't have a TV so I don't know if it's the same for the other controlled news and perception management outlets. Listen to the news and you'd never know that there's a war going on, illegals are invading this country, or that the Supreme Court has decided to hear some game-changing cases. And the president is going to Puerto Rico. They spent about as much time reporting that as they did reporting Tom Petty's death. The perception managers should have left well enough alone and not laser-focused our attention on this event.

They kept our attention on the event and it naturally caught the interest of a few people who look for the truth beneath the surface events. Truth is, it was a psychological construct. A psy-op. Jon Rappoport was the first one I know to question the "lone shooter" official version. That "lone shooter" story sounds very familiar! Jon has been posting in his blog as the story unfolds and more information comes to light. Today's post questions the validity of the "lone gunman" story and - just like Dealey Plaza - he shows us that it would be impossible for one person to fire that many rounds in that narrow time frame.

The story is that the police found 23 weapons in his hotel room. And 19 more in his home. Seems like whoever set up this psy-op over did it with the guns. Dealey Plaza was not a psy-op. It was a real coup. So they only found one rifle in the book depository. 42 weapons is over-doing it, seems to me. Was that intentional? Were they figuratively mooning the public with this over-the-top number of guns? "Ha! Ha! It's all phony and we're in control and we're managing your perception and there's nothing you can

do about it.” Or were the perpetrators just inept? Mebbe so. It’s hard to get good help these days.

The shooter [shooters?] were on the 32nd floor. Obviously an in-your-face clue to a Masonic connection. Why would a lone gunman need to fire from two widely separated windows? Jon posed the question as to how did the shooter smuggle that many guns into the building? Anybody seen photographic proof that they were even there at all? We’re supposed to believe the official narrative of people who were involved in the cover-up?

I watched an on the scene video that shows muzzle flashes coming from a room much closer to the ground floor. And if all this isn’t enough to make you go hmm..... in the night, Rumor Mill News posted a story by someone who was wondering why there were no visuals of ambulances at the scene of the shooting?

<http://www.rumormillnews.com/cgi-bin/forum.cgi?read=84813>

Then along comes William Mount whose video reveals that FEMA was holding drill training for just such an event!

<https://www.youtube.com/watch?v=Ffx-vf27Aic>

And the hotel had installed metal detectors earlier this year. About 4 minutes into the video he tells us that the 3 major networks had broadcast the incident before it happened. Building 7 all over again? A bit later he says that the Nevada legislature was considering a gun control law. If you stay with him to the end, you’ll hear him promoting gold and Bitcoins. Before you get caught up in his enthusiasm, you need to listen to what Betsy and Thomas of the American Intelligence Media have to say about Bitcoins.

<https://www.youtube.com/watch?v=S91lTTbYp-s>

There is no doubt that this drama was a psy-op. Even bigger than Sandy Hook. They’re learning as they go along, it seems. Real bullets? Real victims? They made Sandy Hook seem very real. A distraction, as William Mount theorizes? Another push for gun control? Should be obvious by now that that dog won’t hunt. They floated the story that ISIS claimed responsibility. That didn’t catch on with the public so it’s not mentioned in the never-ending news about the shooting. We may not know why it was done until we see what the Establishment tries to pull off using this as leverage. Whatever they try, it won’t work. Nothing seems to work for them

any more. They spent 30 million dollars to take down one candidate in Alabama and he won anyway. They spent a blue jillion dollars to promote Hillary Clinton, and even with illegals voting for her, she lost.

Must be frustrating to be a member of the Establishment these days.
