**Rich Haas** - *Sacred Quantum Metaphysics* combines 24 updated metaphysical principles of ancient wisdom with 12 new scientific discoveries including Einstein, Quantum Theory, String Theory, and Multidimensional Physics, etc. Rest assured, the book is easy to read and easy to understand, and everything presented will always be in everyday language, without scientific jargon, formulas or difficult equations! When Rich was researching recent scientific discoveries, he was amazed to discover that many of them were verifying ancient metaphysical wisdom. Those interrelationships are the focus of his book *Sacred Quantum Metaphysics*. Visit [www.SacredQuantumMetaphysics.com](http://www.SacredQuantumMetaphysics.com) for a free “Awaken the Enlightened Master

Inside You” Meditation. Rich welcomes your thoughts at [Rich@RichHaas.com](mailto:Rich@RichHaas.com).

There are so many problems facing humanity today, mainly because in the 1600s science made the conscious decision to exclude spirituality and ignore ancient wisdom. Now that the new scientific discoveries have verified much of this forgotten knowledge, we can begin to re-create a better society and universe.

Not only will you understand the nuances of ancient wisdom and scientific discoveries, but you will be given an in depth enlightenment into how to use them to create a much better world for yourself and our culture. You are about to embark on your fascinating journey! Welcome aboard.

Author and Metaphysician Rich Haas, B.A., CHT, CHt, CHI, CLBLT, operated a successful science based Metaphysics practice in Morrison, Colorado for many decades. Rich attained a Psychology Degree, San Jose State University, California in 1975. **Reckless Reader/Sherry Padilla** – Offering a wide variety of Tarot & Divination selections; this is a booth not to be missed. Sherry helps people give themselves permission to break down barriers and open up doors they thought they never could, utilizing a tool that had previously seemed taboo in today's society. I want to take that taboo away and make Tarot an acceptable tool for people to benefit from. I love thinking outside the box and inspiring others to do so, too. I won't say I don't follow the rules, I just follow them differently than most. My philosophy with life and the Tarot: be yourself, be creative, and be a little crazy! Don't get stuck in the box!
