

Affirmation 4

Humankind is to seek and gain knowledge than apply it!

The central control center of the sacred human body is a brain. The brain gives humankind unique intelligence, imagination, abstract thinking, problem solving skills. The ability to absorb knowledge and apply knowledge.

1 God

wants
humankind
to:

Seek Knowledge

Gain Knowledge

Apply Knowledge

On Judgment Day the 1st question **1 God** asks: Explain what knowledge a person has continuously accumulated and how this knowledge was applied for the benefit of the local habitat and all environment. **1 God** wants us to acquire knowledge and apply knowledge from cradle to cremation.

Seeking knowledge means wanting to know, learn, experience... Seek knowledge from: Parents, educators, book, Law Giver Manifest, mentors, internet...

Gaining Knowledge means getting an education, acquiring skills and life experiences. Gain Knowledge from: Studying, asking, reading, listening, observing, projects, trial and error, teaching mentoring...

Applying Knowledge means teaching others, training others and sharing life experiences with others. Apply knowledge through: teaching, application, conversion, usage, utilization...

Custodian Guardian belief the best way to 'Seek, Gain and Apply Knowledge' is by the 'Learn and Teach' method (1st learn then teach). A successful life consists of continuous learning, teaching gaining life experiences. All life !

Life cycle of learning and teaching :

A human is growing in his mother to be womb. The growing fetus **learns** to listen and recognize his parents voices. The parents **teach** by talking, reading,

shouting, singing, making music, laughing, introducing the sounds of pets. A fetus gains its 1st life experiences. Parents gain their 1st experience in parenting.

When attending Shire and Provincial free public education scholars **learn** through study, comprehension, understanding and repetition. The fast learners **teach** (assist educator) the slow learners.

At work every worker is trained and retrained. More knowledgeable, experienced workers help with training and retraining.

A Soul's mission consists of accumulating our life's life experiences. It is your duty to help your Soul. Seeking, gaining and applying knowledge lead to life experiences. Fate, choices further life experiences.

Fate life experience: A life threatening accident (falling from a great height). A life experience that is never forgotten.

Choice life experience: A person decides to parachute. An experience that is never forgotten.

Intellectual Property (I.P), an individual's live experience knowledge is preserved (estate) to become immortal. Knowledge continuity approach identifies critical knowledge and provides methods for capturing, applying transferring that knowledge. Life experiences are to be separated between work and personal.

An individuals life experience knowledge (I.P) is shared with the community and family. Community sharing comes via free public education. Sharing means oral audio (story telling), video (showing), shadowing (hands on).

All intellectual property (commercial, private) belongs to the community (Shire). A community provided the means for a person to gain, I.P. Claiming 'Copyright, Patent' is stealing from the community, **MS R6!**

Family knowledge sharing comes via children, grandchildren. Sharing: oral audio (story telling), video (showing), shadowing (hands on).
