Dear Jim;

After long consideration I have decided to discontinue our consulting relationship. I really must reduce my costs of operation and I think you will agree that there is plenty of information for us to work on now. I understand the program of consultation and presentation and I also know that its implementation will enhance our revenues.

We have grown a lot with you and I really appreciate all your effort. You are a dedicated man!! I hope you will be willing to consult on a fee for service basis when we need help and I'm sure it won't be long before we grow to the point where we can further benefit from your skills.

Thanks for everything; I will send you a letter (requested long ago) which you are free to use as your practice continues to prosper and grow.

Sincerely,

Herbert W. Fawcett DDS
