

## 7th and 8th Grade Basketball Parents

In 7th and 8th grade players can participate in traveling basketball and school basketball. Traveling basketball registrations are due in the middle of September and school basketball registration will be sometime in December. The school basketball program runs from basically after Winter Break to the end of February. The traveling basketball program runs from early November to early March. During the school season (traveling players should also be signed up for the school program) you will have very few extra practices for traveling basketball because you will be practicing every day with the school team. Personally, I view school basketball as a great opportunity to give everyone a chance to play some basketball but if you are a little more serious about basketball or have a goal of playing varsity basketball you should also consider participating in the traveling basketball program.
