

Summer is a great time to try a new instrument. Camper will learn one new piano piece for each day. Student can decide if they want to continue with their class in the fall, and get a jump-start on learning.

Our class includes piano, music theory, instrument station, ensemble, sing, and movement.

We focus on basic piano techniques, rhythm, listening skills, and creativity. The teacher helps each student individually, reviewing the assignment and teaching the new concept for the new assignment.

About Ms. Stephanie:

I was born and raised in China. I attended Tianjin conservatory music school(天津音乐学院) where I majored in piano performance. After I received the bachelor degree, I studied in California, which I strongly believed to be my calling at the time. I love music and I have a passion for children and teaching. I'm a proud graduate of University of Texas at Arlington where I earned my master degree in music education.

I have been teaching since 2013. I teach group and private piano lesson for all ages and levels. My classroom is set up as a creative, fun, positive, and safe learning environment for the students. The piano lessons include technique exercise, music theory, piano scale, and ear-training.

I am excited to join the Discovery Montessori Academy team and look forward to working with your sweet kiddos.
