Dear New Patient,

Thank you for choosing me to be part of your healthcare team. I strive to create a peaceful, supportive and safe space for you to achieve your health goals. By choosing naturopathic medicine, you have made an important and conscious decision to **become an active participant in your health**, which is a valuable healing tool in itself.

As we work together, keep in mind that **health is a process** which requires patience. It has likely taken a number of years for you to arrive at your current state of health. As a result, it can take several months for us to replenish, restore and recreate the conditions for you to return to your optimal state of health. If you are willing to take the time, I am determined to help you **realize your unique level of physical, mental, emotional and spiritual wellness**.

Now that you have booked your first visit, please set aside about 30-45 minutes to read and complete this **Initial ND Visit Package**. In it you will find an **Adult Female New Patient Form** which needs to be completed before your first visit. The more completely and accurately you are able to fill in this form, the more thorough and effective your treatment plan can be. If time permits, return this form to the clinic 1 week prior to your first visit. You will also find **Declaration of Informed Consent to Naturopathic Diagnostic and Therapeutic Procedures, Statement of Acknowledgement, Privacy Information, and Collection, Uses and Disclosure of Information** consent forms which you will need to read thoroughly before your visit. Please refrain from signing these forms until I answer any questions you may have to your satisfaction during your **Initial Naturopathic Visit**. Please refer to the **Fee Schedule** section in our website to ensure you are familiar with the clinic fees and payment policies.

In addition to **ALL OF the above forms (pg.2-10)**, here is a checklist of what else you can **bring to your first visit**, in order for us to make the most of your time in your Initial Naturopathic Visit:

- ✓ Copy of relevant blood work and imaging reports (x-rays, ultrasounds, MRI, CT), as applicable
- ✓ Health journal or health log of your symptoms, if you have been keeping one. For example, in certain conditions people monitor and keep a written record of:
 - Blood pressure
 - Blood sugar levels
 - Dietary habits
- ✓ A list of your top questions, so you can ask them during the visit
- ✓ Date of your first visit: _____ Time: _____

Please keep this page for your records and feel free to post it on your fridge to remind you of your **Initial Naturopathic Visit**.

Thank you in advance for taking the time to fully read and complete this package. I look forward to meeting you and working with you to achieve your goals in health and life.

Kind Regards,

Dr. Odette ☺
