

September Newsletter

Dear Parents and Students,
 Here at Stars Gymnastics we make every effort to keep service prices as low as possible. As our costs increase, however, we find it necessary to make changes. We want to continue to provide quality classes for students, highly trained coaches, and the best experience possible while the student is in class. To do this, we need to have a small increase in our prices. Please see the price change announcement handout for more information.

The tuition increase per class will become effective for October classes 2018. Auto pay families will be processed new prices on September 15th for the month of October.
