

# ABOUT US

Clean Communities of Western New York was established as a Clean Cities coalition in 1994, and incorporated as a 501c3 non-profit in 2000. For 25 years CCWNY has partnered with both public and private fleet managers, owners and operators to evaluate and implement alternative fuels. CCWNY is funded by US DOE, stakeholders and outreach contracts. CCWNY is committed to partnering fleet operators, providing education on the benefits of alternative fuels and the positive effect to our environment as well as reducing fleet operating expenses.

Clean Communities of WNY services the five counties referred to as Western New York, which include Niagara, Erie, Cattaraugus, Allegheny and Chautauqua counties.

A United States Department of  
Energy Clean Cities Coalition

## MISSION STATEMENT

Clean Cities advances the nation's economic, environmental, and energy security by supporting local actions to reduce petroleum consumption in transportation. A national network of nearly 100 Clean Cities coalitions brings together stakeholders in the public and private sectors to deploy alternative and renewable fuels, idle-reduction measures, fuel economy improvements, and emerging transportation technologies.

We are an alternative fuel neutral organization dedicated to helping fleets identify and implement alternative fuels as part of a sustainable fleet fueling strategy.

For additional information and resources about alternative fuels, please visit our website:
