

Transportation - 900 South

900 South Reconstruction & 9-Line Trail (Lincoln Street - 1300 East)

In 2018, Salt Lake City will reconstruct 900 South from Lincoln Street (950 East) to 1300 East. To repair this badly deterior ated street, the project will reconstruct the road base, make minor utility improvements, and repave in concrete. The 6-month project is expected to begin in May.

As part of this reconstruction, a new bik e path will be constructed on the park strip on the south side of the street, part of the 9-Line Trail Extension. Pedestrian crossings will be enhanced with shor ter crossing distances and color ed crosswalks. On street parking will remain.

The 9-Line Trail will eventually extend approximately 9 miles across the city, from Emigration Canyon to the Surplus Canal Trail (planned), west of Redwood Road.

Jordan River Trail 900 S Liberty Park

Full Extent of 9-Line Trail (proposed)

The proposed trail will connect parks, neighborhoods, the Univ ersity of Utah, and business ar eas at 9th & 9th East, Centr al 9th, and 9th & 9th W est.

Proposed Intersection Redesign:

This conceptual design separates out Gilmer Avenue as its own "T intersection" with 900 South. Bulb out designs will be fur ther adjusted to facilitate traffic flow at 900 South and 1100 East.

Draft conceptual design

Incorporation of 9-Line Trail:

Following the conceptual design in the T rail Extension Study, construct a bike path on the south side of 900 Sout. On the steep hill, construct an uphill path & downhill bike lane.

Lane Reconfiguration

900 South will be striped with one lane in each dir ection and a center turn lane, similar t o the configuation both east and west of this segment.
