ELIMINATOR

RUGBY MFG

BUILT BETTER THE RUGBY WAY

Rugby Manufacturing is the world's leading designer and manufacturer of Class 3-5 dump bodies, landscape bodies, platforms, hoists and related truck equipment & accessories.

With more than 4 decades of experience Rugby dump bodies and hoists are precision engineered and manufactured to perform! Rugby is committed to delivering product design innovation, superior quality and unrivaled service. And with each body and hoist backed by a **3-Year Warranty**, nothing compares to Rugby!

- 10 gauge construction throughout on bodies with rigid sides, bodies with fold down sides have 12 gauge sides
- Fully boxed and tapered dirt-shedding top rail
- Double-walled rigid sides with 6" vertical braces
- Single-walled fold down sides with 6" vertical braces
- Pockets for 6" side boards increase load capacity
- Stacked understructure consisting of 5" structural long members overlaid with 3" structural I-beam crossmembers spaced 16" (12" optional) apart
- Optional crossmemberless understructure available
- Sloped ¼ cab shield with slotted viewing window
- Full height corner posts; with rear surface sloped 10° inward on rigid sided body, square rear surface on fold down sided body
- Two-way tailgate with fully boxed brace frame and two vertical braces, equipped with spreader chains and banjo eye chain holders in corner posts

Standard Features

Rugby's patented and industry leading EZ-LATCH™ (located on each side of body) allows for easy body access. The latch system is designed for quick opening and slam lock operation with a cam action to draw-in upper tailgate pins.

Rugby's scissor hoists are specifically designed and tested for the toughest applications. With rugged construction and a durable powder coat finish, you can expect the best truck hoist in the industry.

Shown with optional crossmemberless understructure.

Fold down sides feature a centrally located quick release lever that extends and retracts ¾" pins at each end using a solid linkage member. Weight-saving aluminum fold down sides are optional on steel bodies.

Rear Height (in)	23	23	23
Body Weight (lbs)	1670	1785	1885

STAINLESS STEEL

ONE TOUGH CHOICE

Stainless steel dump bodies from Rugby are corrosion resistant and more durable than high tensile steel. The polished bodies offer a modern, bright, easily maintained and attractive appearance.

The stainless steel Eliminator is built with a one-piece floor, dirt shedding sides, a centrally located quick release lever, (fold down side models only) the patented EZ-LATCH™ system and integrated ¼ cab protector. The unit is designed to provide years of service.

Vertical tailgate allows easy attachment of spreaders during winter.

- 12 ga 201 #4 polished stainless steel sides and ends (304 available)
- One-piece 3/16" AR400 crossmemberless steel floor
- Pockets for 10" side boards increase load capacity
- One-piece sides with no vertical braces
- 5" I-beam longitudinal on 9' body and 7" I-beam longitudinal on 11' body
- Seamless one-piece front design with ¼ integrated cab shield with V-bend for added strength

Rigid smooth sides are also available.

RIGID AND FOLD DOWN SIDE STAINLESS STEEL BODY SPECIFICATIONS

Body Length	9'	11'
Body Capacity (cubic yds)	3-5	4-6
Side Height (in)	14	14
Rear Height (in)	24	24
Body Weight (lbs)	1550	1975

ALUMINUM

HARD WORKING & GOOD LOOKING

Tough, efficient Rugby aluminum Eliminator bodies weigh up to 50% less than traditional carbon steel and provide an exceptional strength to weight ratio! This means increased payload, improved fuel efficiency, and corrosion resistance, in addition to lower maintenance costs and lower tire and brake costs.

The aluminum Eliminator body also features lightweight fold-down sides for easy access. Enjoy long lasting, durable aluminum bodies from Rugby and customize with a wide range of performance and appearance enhancing accessories.

Fold down aluminum sides are lightweight and easy to operate.

- Constructed of 3/16" 5052 Aluminum
- Pockets for 6" boards increase load capacity
- Seamless one-piece front design with 1/4" integrated cab shield with V-bend for added strength
- Crossmembers constructed of 3" I-beam 6061 aluminum interlaced on 13.5" centers
- Long members constructed of 8" formed 1/4" 5052 aluminum

RIGID 2-3 YARD BODY SPECIFICATIONS

Body Length	8'	9'	9'6"	10'	11'	11'6"	12'

ELIMINATOR MD

EVEN MORE CAPABLE

Incorporating the great look and dependable performance of the Rugby Eliminator, the Eliminator-MD increases productivity by combining side and rear dump capabilities. Operators enjoy pinpoint load placement and greater functionality in tight jobsites with the Eliminator-MD.

Multi-Directional dumping hoist specifically designed for MD Eliminator body.

Dumping direction is easily controlled with one lever and Rugby's standard tailgate release controls both the rear and the side release. The Eliminator-MD includes Rugby's patented EZ-LATCH™. Standard vertical side and tailgate braces along with the Eliminator's sleek design offer the complete package to make your work truck stand out!

Increase productivity by combining side and rear dump capabilities with the Eliminator-MD.

- 10 ga steel ends and 7 ga steel floor
- 12 ga fold down passenger side
- 7 ga dump thru driver's side
- 55° side dump angle

ELIMINATOR-MD SPECIFICATIONS				
Body Length	9'	9'	11'	11'
Body Capacity (yds)	2-3	3-4	2-3	3-4
Hoist Capacity Rear/Side (Tons)	9.6/10.9	9.6/10.9	9.6/8.6	9.6/8.6
