.1 When the facilities furnished under this tariff are used in common with local telephone company services, it is necessary in order to prevent excessive noise and cross talk, that the power of the signal applied to the local lines be limited. A single valued limit for all application cannot be specified. Therefore, the power of the signal in the band over 300 hertz which may be applied by the Customer-provided equipment at the point of termination will be specified by the carrier for each application, to be consistent with the signal power allowed on the telecommunications network.

.2 To protect the telecommunications services from interference at frequencies which are above the band of service provided, the carrier will specify the acceptable signal power in the following bands to be applied by the Customer provided equipment or communications system at the point of termination to insure that the input to Bell's facilities does not exceed the limits indicated.

a. The power in the band from 3,995 hertz to 4,000 hertz shall be at least 19 dB below the power of the signal as specified in Subsection .1 preceding.

b. The power in the band from 4,000 hertz to 10,000 hertz shall not exceed 24 dB below one miliwatt.

3.8 **CANCELLATION OF SERVICE** (Cont'd)

3.8.3 Service may be canceled by the Customer only on not less than 30 days written notice to the Company. In the event the Company is unable to disconnect the Customer's access line by the requested cancellation date, the customer will be responsible for any usage over the line.

3.8.4 The discontinuance of service by the Company pursuant to this Section does not relieve the Customer of any obligations to pay the Company for charges due and owed for service(s) furnished up to the time of discontinuance.

3.8.5 The remedies set forth herein shall not be exclusive and the Company shall at all times be entitled to all rights available to it under either law or equity.

3.8.6 Except as otherwise provided in this tariff or as specified in writing by the party entitled to receive service, notices may be given orally or in writing to the person(s) whose name(s) and business address(es) appear on the executed service order.

3.8.7 Where the Company cancels a service and the final service period is less than the monthly billing period, a credit will be issued for any amounts billed in advance, prorated at 1/30th of the monthly recurring charge for each day after the service was discontinued. This credit will be issued to the Customer or applied against the balance remaining on the Customer's account.

The charge will be equal to the non-recoverable portion of expenditures or liabilities incurred expressly for the Customer and the sum of the monthly recurring or minimum usage amount remaining through the end of the term. The Customer is liable for any charges assessed by the interconnecting telephone company providing the dedicated local access line.

3. GENERAL RULES AND REGULATIONS (Cont'd)

3.9 DETERMINATION AND RENDERING OF CHARGES

3.9.1 For the purpose of billing, service will be deemed to be started on the day the service and its associated equipment, if any, is installed. Where billing is based upon Customer usage, Customers will be billed for all usage commencing on the date usage begins.

3.9.2 Subject to the Company's right to cancel or suspend services as otherwise provided in this tariff, the minimum service period is 30 days. Termination by Customer is effective 30 days after receipt by the company of a written notice of cancellation. Termination by the Company is effective 30 days after delivery of written notice or as otherwise set forth in this tariff or other agreement between the Customer and the Company.

3.9.3 In situations where a Special Service is requested, the minimum service period and charges will be determined on a case-by-case basis.

3.9.4 All monthly recurring charges are billed one month in advance. Initial and final month's billing, when the service period is less than a month, will be prorated at 1/30th of the month's recurring charge for each day the service was rendered or equipment was provided.

3.9.5 Usage charges are billed monthly for the preceding billing period. For periods less than the monthly billing period, minimum usage charges are prorated at 1/30th of the monthly minimum amount for each day the service was rendered.

3.9.6 The duration of a call is rated in intervals of the billing increments described for each service provided in this tariff. If the final interval of a call is less than the applicable billing increment, it will be rounded up to a full increment for purposes of billing.

3.9.7 Computed usage charges or credits for each call are rounded to the nearest cent when possible.

3. GENERAL RULES AND REGULATIONS (Cont'd)

3.9 DETERMINATION AND RENDERING OF CHARGES (Cont'd)

3.9.8 The applicable usage rates for the billing of a distance sensitive call will depend on the distance in airline mileage between the originating and terminating points of the call. For the purpose of determining the airline mileage of a call, the Company will utilize the vertical ("V") and horizontal ("H") coordinates of the rate centers of the originating and terminating points of the call. For purposes of billing, the Company references "V" and "H" coordinates provided by Bell Communications Research. Calls originated by dialing a local exchange number or a 950-type number using an authorization code, the originating point will be the rate center in which the switched access facilities are located. For calls originated via equal access connections, WATS access lines or dedicated access lines, the originating point will be the rate center in which the Customer is located. The terminating point will be determined by the rate center of the called number.

The formula to determine airline miles is as follows:

$$\sqrt{\frac{(V1-V2)^2 + (H1-H2)^2}{10}}$$

3.9.9 Rate periods apply, unless noted otherwise, as indicated below and are based on the time in which a call is established. In cases where a call begins in one rate period and continues into another, the rate in effect in each period will apply to the portion of the call occurring within the applicable rate period.

Day rates apply from 8 a.m. to, but not including, 5 p.m. Monday through Friday

Evening rates apply from 5 p.m. to, but not including, 11 p.m. Sunday through Friday

Night rates apply from 11 p.m. to, but not including, 8 a.m. seven days a week.

Weekend rates apply from 8 a.m. to, but not including, 11 p.m. Saturday and from 8 a.m. to, but not including, 5 p.m. on Sunday.

On holidays, evening rates apply throughout the day on which the holiday is observed unless a lower rate would normally apply.

3. GENERAL RULES AND REGULATIONS (Cont'd)

3.10 TIMING OF CALLS

3.10.1 Billable time for service is the duration of time between the called station answering and the called or calling station disconnecting, provided duration may be rounded in accordance with specific descriptions in this tariff.

3.11 SPECIAL SERVICES

For the purpose of this tariff, a Special Service is deemed to be any service requested by the Customer for which there is no prescribed rate in this tariff. Special Services charges will be developed on an individual case basis and filed in this tariff.

3.11.1 Special Service charges will be based on the estimated cost of furnishing such services including the cost of operating and maintaining such a service, the cost of equipment and materials used in providing such a service, the cost of installation including engineering, labor supervision, transportation, and the cost of any other specific item associated with the particular Special Service request.

3.11.1.1 If at the request of the Customer, the Company obtains facilities not normally used to provide service to its customer, the cost incurred will be billed as a Special Service.

3.11.1.2 If at the request of the Customer, the Company provides technical assistance not normally required to provided service, the costs involved will be billed as a Special Service.

3.11.1.3 Where special signaling, conditioning, equipment, or other features are required to make Customer-provided equipment compatible with the Company service, the cost of providing these features will be billed as a Special Service.

1.13.4 Simplified Municipal Telecommunication Taxes

(T)

The Company will assess on all gross retail charges on any applicable municipal taxes. The subscriber's service address will be used to determine the municipality of the subscriber. The Company will investigate within 60 days any subscriber's request to review the municipality assigned by the Company and determine the subscriber's correct taxing jurisdiction. If the Company determines in the investigation that there was an error, the Company will refund or credit the amount of erroneously collected tax for a period of up to two years. If the investigation determines no error was made, the Company will notify the subscriber in writing of said determination.

No legal cause for action exists based on a dispute of municipal taxes until the subscriber has reasonably exercised the rights and procedures outlined in Public Acts 92-0474 and 92-0602. The Company will use the current Simplified Municipal Telecommunications Tax (SMTT) list published on the Illinois Department of Revenue's website to determine the appropriate SMTT applied to subscribers' bills. This charge will be in addition to the regular charges for interexchange service and shall be set out as a separate line item on the subscriber's bill.

4.4.2 The Company reserves the right to require an applicant for the Company 800 Service to supply the following information when requesting service: an initial traffic forecast, identification of anticipated busy hour, identification of its geographical marketing target areas, and a schedule of marketing and promotional activities. The Company may also require that a new traffic forecast be submitted by the Customer quarterly after service is initiated.

4.4.3 The Company's 800 Service is furnished upon condition that the Customer contracts for adequate facilities to permit the use of this service without injurious effect upon it or any service rendered by the Company. The Company may terminate or refuse to furnish 800 Service to any applicant, without incurring any liability and without notice to the Customer, if the use of the service would interfere with or impair any service rendered by the Company.

"Substantial use" shall mean a pattern of use that demonstrates an intent on the Customer's part to employ the number for the purpose for which it was intended; namely, to allow callers to reach the Customer, as indicated, for example, by at least 30 average monthly minutes of use or more. Any 800 telephone number associated with the Company 800 Service that has not been placed in actual and substantial use during the first sixty (60) day period after service activation may be redesigned as a spare number in the Company 800 database by the Company upon written notice to the Customer.

4.4.6 If the Customer requests assignment of a specific 800 Service telephone number, the Company may require the Customer to submit a number reservation agreement form to the Company. At no time may a Customer have more than ten (10) numbers reserved. Any reservation shall be for no more than sixty (60) days and shall be subject to a reservation fee which will be credited to Customer's unpaid balance after the Company 800 Service has been in actual and substantial use for a consecutive sixty (60) day period.

4.4.7 Nothing in this Section, or in any other provision of this tariff, or in any marketing materials issued by or on behalf of the Company, shall give any person, including prospective Customers who have reserved 800 telephone number hereunder or Customers who subscribe to and use the Company 800 Service or their transferee or assigns, any ownership interest or proprietary right in any particular 800 number; however, upon placing a number actually and substantially in use, as defined above, the Company 800 Service Customers do have a controlling interest in the 800 number(s).
