

She Looked in the mirror and saw a face that was not her own!

Carol Harper's incredible before and after story

Before being hit by a drunk driver and having six painful surgeries to rebuild her face, Carol Harper was a vivacious, beautiful young lady with a successful career and everything to live for. As public relations assistant at a prestigious hotel in Washington, D.C, she wined and dined with congressmen and senators. Her looks were her livelihood.

Shortly after moving to Atlanta, her life changed forever! One morning at 8 a.m., a 100 M.P.H. impact destroyed Carol's beautiful face shattering her bones and leaving her unrecognizable. Through this horrific car crash, she lost her job, her husband and the life she knew as her own.

Severely depressed, Carol was ready to end it all. Through an amazing inner strength she found the will to survive. Not only did she overcome her adversity, but she is now helping others pursue their dreams.

Carol recently wrote the book, *Extraordinary Divorce - Stories of Women Who Discovered Their Destiny After Divorce*. She spends her time working as a motivational speaker and promoting her book.
