Start with Joy: Designing Literacy Learning for Student Happiness

For anyone working with K-3 Students

Join us for this fun book club! Together we will share our thinking, explore our wonders, and engage with our colleagues.

Start with Joy: Designing Literacy Learning for Student Happiness links what we know from the science of happiness with what we know about effective literacy instruction. By examining characters in the books they read, children develop empathy for others and come to understand that we all struggle and we all love. When given a choice about what to write, children express hopes, fears, and reactions to life's experiences. Literacy learning is full of opportunities for students to learn tools to live a happy life.
