

3-Week Plan

NCSBN's Reviews for the NCLEX-RN® & NCLEX-PN® allow you to study at your own pace, giving you unlimited 24-hour access to student nursing content, exam practice questions, and many other NCLEX preparation resources. The recommended time required to complete the review course at a slow and thorough pace is approximately **85 hours**; however, you determine how much or how little time you want to spend on the review.

The following schedule is for those individuals who want a more prescriptive plan for how to use our 3-week course. The time is divided equally among the 3 weeks, anticipating that you will be able to study about 6 hours a day for 5 days each week.

Customize your NCLEX review using our *free* **Medication Flashcards Mobile App**. Test your knowledge of commonly prescribed medications and therapeutic drug classifications while you learn interesting, fun and important facts.
