The Outdoor Hardware Collection includes steel finials, poles, brackets and rings.

Tested for outdoor use and guaranteed against:

- UV exposure
- Humidity
- Sea spray

5 Custom finishes available on all Outdoor Hardware products with protective high gloss, weather resistant topcoat.

- 450-OH Aluminum Gloss
- 440-OH Soft Gold Gloss
- 103-OH Satin Black Gloss
- 105-OH Bronze Gloss
- 270-OH Mahogany Rust Gloss

Note:

Each order will include 2 oz. of finish and protective topcoat for periodic maintenance.

Items with welds are not covered under the Outdoor Hardware Limited Warranty.

Outdoor Hardware Limited Warranty

All Outdoor Hardware is guaranteed to be free of manufacturing defects and is covered under our Manufacturers Limited Warranty. The product is guaranteed not to rust and the finish not to fade for 5 years if the product is maintained according to the "Product Care" information. In the event of rusting or fading, photography may be requested for finalization of claims on a case-by-case basis.

Outdoor Hardware Product Care

Unlike indoor drapery hardware, outdoor hardware requires periodic maintenance. It is important that any damages or finish abrasion be repaired immediately. Any scratches incurred during installation must be repaired at that time. Stainless steel mounting hardware is recommended, but not included. Each order will include 2 oz. of finish and protective topcoat for periodic maintenance.

In addition, twice a year, it is important to clean and inspect the outdoor hardware for scratches or wear patterns that could expose the metal and result in rusting. This is very important for treatments with rings. If such areas are discovered, apply the paint finish sent with the order. When dry, apply the clear protective topcoat also provided.

please note: allow 10-15 business days for production of **Outdoor Hardware Collection**. Professional installation recommended due to weight of steel products. Brackets recommended every 3 feet. Splicing not recommended for steel rods.

\$80.00 per return

Rectangular backplates: 3"L x 1½"W (for 1SQ). Round backplates upon request.

Round backplates: 1⅜"Dia (for 50SRB), 2"Dia (for 75HSRB, 75RD, RD125 and RD175). Rectangular backplates upon request.

Product Information

- Available on steel poles: 50SRB, 75HSRB, 75RD, 1SQ, RD125, RD175
- Sold in one foot increments, 2 foot minimum.
- Cut to specified length. Fall off will not be saved or shipped.
- Round Backplates: 1⅜"Dia (for 50SRB), 2"Dia (for 75HSRB, 75RD, RD125, RD175). Rectangular backplates upon request.
- Rectangular Backplates: 3"L x 1½"W (for 1SQ). Round backplates upon request.
- Bent Return fees are charged per return; returns over 8" incur an additional charge. TFCFEE-CBKT: \$25.00 per return

Please Specify

- A. Length of pole from outer return edge to outer return edge.
- B. Return (distance from wall to center pole).
- C. Pole item number.
- D. Finish color.
- E. Projection or support bracket being used.

steel pole mitered returns

Catalog page 52

TFCFEE-SMR steel pole mitered returns - up to 8" returns

\$80.00 per return

Rectangular Backplates: 3"L x 1½"W (for 50SRB, 75HSRB and 75RD, 1SQ, RR100, ST2, ST3, SRT1, SHT1, RR125, RD125, SRT2, and RR125) and 3½"L x 2"W (for RD175 and TRT). Round backplates upon request.

Product Information

- Sold in one foot increments, 2 foot minimum.
- Cut to specified length; fall off will not be saved or shipped.
- Rectangular Backplates: 3"L x 1½"W (for 50SRB, SRH75, 75HSRB, 75RD, 1SQ, RR100, ST2, ST3, SRT1, SHT1, RR125, RD125, ST2 and RR125, RR175 and RD175) and 3½"L x 2"W (for RD175 and TRT). Round backplates upon request.
- Round Backplates: 1⅜"Dia (for ½" pole), 2"Dia (for ¾", 1" and 1¼" poles) and 3"Dia (for 1¾" pole).
- Ring inner diameter must be large enough to clear the pole miter, if used. See Ring Chart.
- Mitered Return fees are charged per return; returns over 8" incur an additional charge. TFCFEE-CBKT: \$25.00 per return

Please Specify

- A. Length of pole from outer return edge to outer return edge.
- B. Return (distance from wall to center pole).
- C. Pole item number.
- D. Finish color.
- E. Projection or support bracket being used.

bay window and corner window solutions

bay window corner miters or soft bends

Required Measurement Information

please include with your order:

- pole size and profile.
- length of walls (wall 1, wall 2, and wall 3).
- distance from front facing wall to wall 2.
- width of opening on front facing wall.
- angle of each miter or soft bend.
- return (distance from wall to center of bracket cradle).
- chosen brackets.
- chosen finials.
- chosen rings, if any.
- please make deductions for brackets and finials and provide finished length on order.*

*What are pole deductions?

Pole Deductions for Finials

When measuring your pole length for bay window installations, please consider where on wall 1 and wall 3 you want your finials to be positioned. Do you want them behind the opening of the front facing wall? See diagram.

pole deductions for finials

Pole Deductions for Brackets

When measuring your pole length for corner installations, remember that the poles do not reach the corner due to your brackets. See diagram.

pole deductions for brackets

All orders with poles with bent or mitered returns, soft bends or miters for corner and bay windows will incur a \$25.00 net packaging fee per order.

miters and soft bends for steel poles

Soft bends are only available for 1/2" 50SRB, 3/4" 75RD and 75HSRB poles at 90° angle or larger.

Soft bends (for ≥ 90° corners)	TFCFEE-SSB	\$80.00 per bend
Standard 45° miter cut (for 90° corners)	TFCFEE-SM45	\$65.00 per cut
Non 45° miter cut (for non 90° corners)	TFCFEE-SM-NON45	\$65.00 per cut

miters for wood poles

We can miter our wood poles at any angle for you.

Mitered returns for wood poles	TFCFEEMITER-EACH	\$80.00 per return
Standard 45° miter cut (for 90° corners)	TFCFEEMITER-45	\$65.00 per connection
Non-45° miter cut (for non-90° corners)	TFCFEEMITER-NON45	\$65.00 per connection
Wood cutting fee for more than one cut	TFCFEWVCUT	\$65.00 per cut

miters and blends for traverse wood fascia

We cannot miter system tracks, but traverse wood fascia can connect and miter at the corner.

Mitered returns for wood fascia	TFCFEEMITER-EACH	\$80.00 per return
Standard 45° miter cut (for 90° corners)	TFCFEEMITER-45	\$65.00 per connection
Non-45° miter cut (for non-90° corners)	TFCFEEMITER-NON45	\$65.00 per connection
Wood fascia fabrication fee	TFCFEFASCUT	\$65.00 per cut
Wood fascia blending fee	TFCFEEBLEND	\$108.00 per blend

90° inside corner window

Required Measurement Information

please include with your order:

- A. pole size and profile.
- B. length of pole 1.*
- C. length of pole 2.*
- D. return (distance from wall to center of bracket cradle).
- E. chosen brackets.
- F. chosen finials.
- G. chosen rings, if any.

* What are pole deductions?

Pole Deductions for Brackets

When measuring your pole length for inside corner installations, remember that the poles do not reach the corner due to your brackets.

See diagram.

pole deduction for brackets

90° outside corner window

Required Measurement Information

please include with your order:

- A. pole size and profile.
- B. length of pole 1.*
- C. length of pole 2.*
- D. return (distance from wall to center of bracket cradle).
- E. chosen brackets.
- F. chosen finials.
- G. chosen rings, if any.

* What are pole additions?

Pole Additions for Brackets

When measuring your pole length for outside corner installations, remember that the poles extend beyond the corner due to your brackets.

See diagram.

pole addition for brackets

\$70.00 ea	\$100.00 ea	\$65.00 ea	\$65.00 ea

TBKT, custom steel T-bracket

please specify:

- A. return (distance from wall to center of cradle)
- B. pole size and profile

note: 3½"H backplate comes standard, unless otherwise specified

BL4, custom steel ceiling mount bracket

please specify:

- A. drop (distance from ceiling to top of pole)
- B. pole size and profile
- C. rings to be used, if any

note: minimum drop is contingent upon which finial and ring is chosen

2½"W ceiling plate comes standard, unless otherwise specified

DBL1, custom steel double bracket

please specify:

- A. front pole size and profile
- B. back pole size and profile
- C. outside diameter of rings to be used
- D. front and back returns (distance from wall to center of cradle)

note: returns are contingent upon which poles and rings are chosen
3½"H backplate comes standard, unless otherwise specified

FBKT, custom steel single bracket

please specify:

- A. return (distance from wall to center of cradle)
- B. pole size and profile

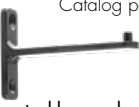

note: 4¾"H backplate may not be modified

Options:

For a custom bracket with return or drop distance in excess of 8", add the following custom bracket modification fee TFCFEE-CBKT: (Includes a recommended support arm.)	\$25.00 per bracket
To modify an existing Standard Bracket, add a Custom Bracket Modification fee TFCFEE-BKTMOD:	\$50.00 per bracket
Support bars can be added to existing Custom Brackets, add the following fee TFCFEE-SB: (Must be added for returns over 8")	\$25.00 per bracket

This leaf can be welded to the front of any steel bracket with a maximum return of 3 1/2". When ordering your bracket, please specify addition of SL. Shown with L135 bracket.	This leaf can be welded to the front of any steel bracket with a maximum return of 8". When ordering your bracket, please specify addition of LL. Shown with L16 bracket.	This leaf can be welded to any steel ring or steel bracket. When ordering your ring or bracket, please specify addition of SL3, and in what position it should be attached.	Any rosette or end cap can be added to any wood or steel bracket. Rosettes and end caps sold separately. When ordering your bracket, please specify addition of rosette or end cap and the following: 1. rosette medallion or end cap to be added, sold separately 2. attachment method:
TFCFEE-SWELD spot weld fee: \$15.00 ea	TFCFEE-SWELD spot weld fee: \$15.00 ea	TFCFEE-SWELD spot weld fee: \$15.00 ea	<ul style="list-style-type: none"> TFCFEE-DRILL drill and tap fee: \$15.00 ea TFCFEE-SWELD spot weld fee: \$15.00 ea (for steel rosettes and steel end caps on steel brackets only)

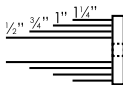

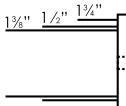

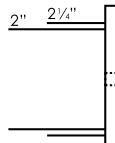

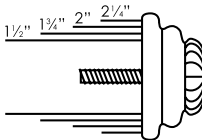

steel swing arms

Catalog page 57	Catalog page 57	Catalog page 57
		
maximum length 36"	maximum length 36"	maximum length 20"
1" diameter pole RD125 8 1/2"H x 1 1/4"W backplate L9328 finial included, 1 3/4"Dia scroll included, 7"H x 16"Deep	1" diameter pole RD125 8 1/2"H x 1 1/4"W backplate L9328 finial included, 1 3/4"Dia	1/2" diameter pole 50SRB 4"H x 3/8"W backplate EC4 finial included, 3/4"L X 1 1/2"W
large swing arm "with scroll"	large swing arm "without scroll"	small swing arm
\$450.00 ea	\$400.00 ea	\$250.00 ea

Please note: for LARGE SWING ARM or SMALL SWING ARM: other finials may be used; sold separately

If the finial you want isn't in the diameter you need, you can add a finial adaptor.

The finial adaptor acts as the new finial base.
Select a finial adaptor size from the **base adaptor size** chart, specify "add finial adaptor" and add the following upcharge.

	base adaptor size			use for pole diameters	Price
FA-S Small Adaptor		FA-S, 1 3/8"Dia		1/2", 3/4", 1", 1 1/4"	\$12.00 ea
FA-M Medium Adaptor		FA-M, 2"Dia		1 1/2"-1 3/4"	\$12.00 ea
FA-L Large Adaptor		FA-L, 3"Dia		2"-2 1/4"	\$12.00 ea
FC1 Adaptor		FC1, 2 3/8"Dia		1 1/2"-1 3/4", 2"-2 1/4"	\$25.00 ea

- Finial Adaptor Tips:**
- It is typically easier and more visually pleasing to adapt a finial to a larger diameter pole, rather than a smaller diameter pole.
 - Many finials are located in multiple size categories because they look appropriate for several pole sizes; you may not need an adaptor.

STBA1 shown with R73 rosette face mount. Rosette sold separately.

Installation Tip: Methods of attaching finial or rosette to custom tiebacks:	
TFCFEE-DRILL Drill and tap fee (for any finial or rosette)	\$15.00 ea
TFCFEE-SWELD Spot weld fee for steel finial or rosette only	\$15.00 ea
Screw on tip mount	no charge
• Specify if "face" mount or "tip" mount	

arched window required template

Draw entire installation to scale on large butcher paper

How to Calculate Length of Pole Needed for Your Arch

arch width (inches) + arch height (inches) + 48" = total length of arched pole (inches)

Required Measurements

Paper template must be provided with every arched window order. Please mark the following measurements on the template:

- Pole size and profile.
- Height of arch: please specify which height measurement you are using.
 - measurement from bottom center of pole to bottom of arch.
 - measurement from top center of pole to bottom of arch.
- Width of arch (from outside edge to outside edge).
- Return (distance from wall to center of bracket cradle).
- Selected support bracket(s): please indicate position of each bracket.

note: ARBE brackets must be used for ends of vertical arched poles.

- Selected rings, if any, must be welded to vertical arch: please indicate position of each ring.

***note:** Outermost rings must be a minimum of 1 1/2" from end of pole due to ARBE bracket cup.

***note:** ARBC, custom center bracket, can not be used with welded rings; select a standard or custom cradle bracket for center support unless pole is spliced in center.

Fill in and send this page with template and order.

custom arches

arched window poles, rings, and brackets

Catalog page 59

All orders with arched rods will incur a \$25.00 net packaging fee per order.

Steel poles available for arched window bending

- 50SRB - RD125
- 75RD - SRT2
- 75HSRB - TRT
- SRT1 - RD175

Bending for standard or eyebrow arches, add the following upcharge:

TFCFEE-ARCH Single arch bend	\$600.00 per bend
------------------------------	-------------------

If total length of arch specified requires 2 poles and, therefore, a splice, 2 bends are required. Add the following upcharge.

TFCFEE-2ARCH Spliced arch, 2 bends	\$1,200.00 per 2 bends
------------------------------------	------------------------

For shipping some large arches, the factory will cut bent pole at apex (center) for no additional charge.

Rings must be spot welded into place, if using rings for vertical installation. Indicate ring locations on template drawing. Add the following upcharge.

TFCFEE-SWELD Spot weld fee	\$15.00 ea
TFCFEE-DRILL Drill & tap fee	\$15.00 ea

Steel rings sold separately.

Finials, brackets, and arched poles sold separately

Note: Additional support brackets are required for two-piece arch.

Note: An addition drill and tap fee is required to use finials on vertical arches.

arched window custom brackets: made to your specifications

 Catalog page 59 arched rod center bracket	 Catalog page 59 arched rod end bracket for vertical arches
custom return ARBC \$45.00 ea	custom return; sold in pairs only ARBE \$110.00 pair

note: ARBC bracket cannot be used for installation with welded rings unless pole is spliced. Brackets without eyelet cradles may be substituted; sold separately.

note: ARBE bracket cups are custom made to fit pole profile.
note: If welding rings to arch, outermost ring must be positioned 1 1/2" from end of pole due to the bracket cup.

please specify for ARBC or ARBE

- A. return (distance from wall to center of cradle)
- B. pole size and profile

custom finishing

Catalog page 60

custom finishes and custom color match

Beyond our standard finishes, we can match any finish, fabric swatch, wood trim or paint color specified from your favorite paint company. A finish sample or paint color, sheen level and manufacturer must be provided by the customer. The Finial Company will then provide a strike-off sample to the customer on any wood or steel pole profile as requested. Customer approval of the strike-off sample is required before production will begin. Please see page 90 for detailed list of fees.

clear coating

Clear coat can be added on any finish to achieve your preferred sheen level. Sheen choices are matte, satin and high gloss as shown in the catalog. Please see page 90 for detailed list of fees.

100 Polished Steel finish

Many, but not all, of our raw steel products can be polished and given a clear topcoat to achieve a finished look. Steel is not uniform in color tone and will vary in shades of gray and silver. Polishing raw steel parts requires considerably more preparation work than our other finishes and therefore incurs additional charges.

A polished steel finish is NOT available on the following items that appear in the steel section of the 2018 catalog:

TRT	EB3
EC1	CSL16
SELB	EB1
EB5	EC3
RF4	123ELB
EB2	EB6

repaint fees

Includes painting product from any manufacturer in a standard TFC finish included in the 2018 Drapery Hardware Catalog. 10-15 day lead time. (all prices below are SRP)

Catalog page 67

All orders with poles will incur a \$10.00 net packaging fee per order.

Product Information

- Sold in 2 foot increments, 2 foot minimum
- Cut to specified length. Fall off will not be saved or shipped
- Connector screw available for joining two poles for no additional charge
- EZ glide tape included; no charge

Please Specify

- Item number
- Custom pole length
- Finish color
- Connector screw, if needed. *We recommend installing a support bracket at the connection*
- Options, if selected (see below)

Connection Options

- Pole connector screw: **no charge**
Join two poles with a connector screw. Ask for one with your order
Positioning a support bracket at this connection is important. It helps conceal the splice while offering additional support to this fragile area

Maximum continuous length: 144 inches (12')

standard crest installation methods

Pole Mount

L-bracket attaches standard crest to top of pole.
Note: L-bracket included with standard crest.

please specify:

- A. pole size and profile.
- B. bracket and return (distance from wall to center of cradle).
- C. ring, if any.

Custom Wall Mount

custom H-bracket attaches crest to wall independently of drapery hardware.

HBKT Custom h-bracket	\$60.00 ea
--------------------------	------------

please specify:

- A. return (distance from wall to back of crest)
- if crest is being installed with drapery hardware, please also specify:
- B. pole size and profile.
 - C. pole bracket and return (distance from wall to center of cradle).
 - D. ring, if any.

TFCFEE-CBKT Custom bracket modifications fee for brackets over 8"	\$25.00 ea
---	------------

Traverse Fascia Mount

required crest block attaches crest to corded or motorized traverse with fascia.

Crest block	\$25.00 ea
-------------	------------

please note:

Attaching fabric panels to the standard crest is not advised. All fabric treatments, whether swags or drapery panels, need to be installed independently of the custom H-bracket, as it is only meant to hold the weight of a standard crest.

pole mount crests slide onto pole; cannot be wall mounted

Catalog page 94	Catalog page 94
	
14¼"W x 6"H pole mount only	10⅞"W x 4¼"H pole mount only

\$125.00 ea	\$95.00 ea

pole mount crest installation method

pole mount crest slides onto pole

Set screw (B) holds crest in place. Be sure the return (distance from wall to center of cradle) on your pole brackets (A) allow the back of the crest to clear the wall and other objects.

please note:

- pole brackets (A) cannot be installed where the pole mount crest is positioned (if center support bracket is needed, it will be to the side(s) of the crest).
- rings will not fit behind pole mount crest.

Based on your specified finish we supply track and brackets that best match the finish on your fascia. Please refer to the Finish Reference Guide to the left. If you order a custom match finish, please specify your track color.

Components are included in the per foot track price, as listed in the Retail Price List. Components will match the track color when applicable (see chart at bottom of page).

Standard glides are 4 per foot. Standard brackets are 2 end brackets with 1 support bracket for every 3–4 feet of track.

Wood pole profiles available in 1 $\frac{7}{8}$ ", 2", 2 $\frac{1}{4}$ " and 3" diameters can be used as fascia.

Spliced fascia will be cut at a 45° angle for an obscure splice upon request.

Spliced fascia can be blended for an additional fee (see pages 62, 68). Blended fascia will be properly connected and shipped in one continuous length.

COMPONENT COLORS

Components include: glides, master carriers, and drive gears/end pulleys.

	hand-draw		motorized	
	light duty	heavy duty	BTX	Somfy
ANTIQUE GOLD			•	
BRONZE	•		•	
WHITE	•	•	•	•

C-ring glides are available only in Bronze

Please Note: BTX DC motor is always white; Somfy Glydea™ motor is always silver.

Corded or Baton Draw, Pinch Pleat only.

Single Traverse System

- coordinates with all fascia profiles or available with no fascia
- standard single brackets are adjustable: 3 1/2" - 4 1/2" return
- 6" return bracket may be substituted at no charge
- custom ceiling mount brackets for systems with fascia available for an additional charge
- batons and finials sold separately
- c-rings available for 2", 2 1/4" and 3" diameter round fascia systems without mitered returns; sold separately

Double Traverse System

Back track available with or without wood fascia. Back track shown with fascia and end caps.

- coordinates with all fascia profiles or available with no fascia
- standard double brackets are adjustable: 2 1/2" - 3 1/2" back track and 5 1/2" - 6 1/4" front track return
- custom ceiling mount brackets for systems with fascia available for an additional charge
- batons and finials sold separately
- c-rings available on front track for 2", 2 1/4" and 3" diameter round fascia systems without mitered returns; sold separately

Single or Double Traverse System with Mitered Returns

Back track available with or without wood fascia. Finials and c-rings are not available with this option.

- coordinates with all fascia profiles
- standard single brackets are adjustable: 3 1/2" - 4 1/2" return
- standard double brackets are adjustable: 2 1/2" - 3 1/2" on back track and 5 1/2" - 6 1/4" on front track return
- custom ceiling mount brackets for systems with fascia available for an additional charge
- batons sold separately
- mitered returns sold separately

Stationary Front Pole with Back Traverse System

2", 2 1/4", and 3" wood poles can be used. Shown with custom traverse brackets. Back track available with or without wood fascia. Back track shown with fascia and end caps.

- traverse system coordinates with all 2", 2 1/4" and 3" round fascia profiles; flat and slim fascia may not be used
- coordinates with 2", 2 1/4" and 3" poles for stationary front pole
- stationary front pole and TBKT214-L or TBKT300-L bracket must be ordered separately
- returns need to be specified for front pole and back traversing track
- batons and finials sold separately
- rings are available for front pole and are sold separately

light duty traverse systems

single light duty traverse system

Catalog pages 95-97

Orders with traverse systems up to 16' will incur a \$10 packaging fee, over 16' will incur a \$25 packaging fee.

Product Information

- Single light duty traverse system price includes: traverse track, 2 adjustable end brackets, an additional adjustable bracket every 3-4 feet, and 4 glides per foot.
- Sold in 2 foot increments, 4 foot minimum.
- Cut to specified length. Fall off will not be saved or shipped.
- Track maximum length up to 240" (20 ft.)
- Track and matching brackets available in antique gold, bronze or white.
- Glides available in bronze or white.
- Center or one-way draw available.
- Fascia, if selected, in 1 7/8" slim round, 2", 2 1/4" or 3" round wood profiles available up to 192". 2 1/4" flat fascia is available up to 144". Fascia is installed directly onto front of

traverse system track. Fascia over 16 feet will be spliced.

- 1 7/8" slim round and 2 1/4" flat smooth fascia do not accept finials. Not available for back fascia on Double Systems or Double System with Back Traverse and Stationary Pole in Front.

Please Specify

- Item number for track or track with wood fascia.
- Track length (track and fascia are the same length).
- Track and matching bracket color (if not specified, we will select color to match fascia finish).
- Bracket return: 3 1/2" or 6" (adjustable, see page 63 for details).
- Cord location: right or left.

- Draw: center, one-way stack right or one-way stack left.
- Number of glides if different than 4 per foot.
- Cord drop (standard is 120"). Additional length available upon request.
- Finish name and number for fascia, if selected.

Options

- Custom ceiling mount bracket page 63.
- Additional brackets page 63.
- 3 1/2" or 6" mitered return(s) see below.
- Standard splices and blended splices for fascia over 16', see below.

Additional Traversing Configurations

Pricing for Double Systems and other configurations are based on Single System pricing. See page 63 for details.

ANSI Standards: Child Safety Warning Tags

**ANSI Standard 100.1:
Safety of Corded Window
Coverings**
Requires warning tags for
child safety on all interior
drapery hardware and
window covering products
that incorporate cords, bead
chains, cord shrouds or any
type of flexible loop control
device in their operation
INCLUDING sales collateral
materials.

LIGHT DUTY STACK BACK CALCULATION (each drapery panel)

Light Duty pinch pleat NO RINGS: master carrier + (# glides on panel x .5") + 1" = stack per drapery panel

Light Duty pinch pleat WITH RINGS: master carrier + (# glides on panel x .75") + 1" = stack per drapery panel

EX: Light Duty pinch pleat NO RINGS, 10ft. center draw (standard 4 glides per ft.)

4" + [(40/2) glides on panel x .5"] + 1" = 1.5" stack back, per drapery panel BEFORE drapery fabric is installed

Please note: Calculations result in Stack Back Width BEFORE drapery fabric is installed. Stack back width will increase once draperies are installed. Factors such as thickness of drapery fabric, type of drapery pleat, and fullness of treatment affect the final stack back width. Please consult your workroom to determine your final stack back based on your draperies.

master carriers and glides for light duty traverse brackets

wall mount brackets

Single Light Duty Bracket (HDTB35-L)

Available in White, Bronze or Antique Gold

Double Light Duty Bracket (HDTB-L)

Available in White, Bronze or Antique Gold

Special Instructions

Corded or Baton Draw, Pinch Pleat or Ripplefold.

Single Traverse System

C-rings are not available with this option.

- coordinates with all fascia profiles or available with no fascia
- standard single brackets are adjustable: 3 1/2" - 4 1/2" return
- 6" return bracket may be substituted at no charge
- custom ceiling mount brackets for systems with fascia available for an additional charge
- batons and finials sold separately

Double Traverse System

Back track available with or without wood fascia. Back track shown with fascia and end caps. C-rings are not available with this option.

- coordinates with all fascia profiles or available with no fascia
- standard double brackets are adjustable: 2 1/2" - 3 1/2" back track and 5 1/2" - 6 1/4" front track return
- custom ceiling mount brackets for systems with fascia available for an additional charge
- batons and finials sold separately

Single or Double Traverse System with Mitered Returns

Back track available with or without wood fascia. Finials and c-rings are not available with this option.

- coordinates with all fascia profiles
- standard single brackets are adjustable: 3 1/2" - 4 1/2" return.
- standard double brackets are adjustable: 2 1/2" - 3 1/2" on back track and 5 1/2" - 6 1/4" on front track return
- custom ceiling mount brackets for systems with fascia available for an additional charge
- batons sold separately
- mitered returns sold separately

Stationary Front Pole with Back Traverse System

2", 2 1/4", and 3" wood poles can be used. Shown with custom traverse brackets. Back track available with or without wood fascia. Back track shown with fascia and end caps.

- traverse system coordinates with all 2", 2 1/4" and 3" round fascia profiles; flat and slim fascia may not be used
- coordinates with 2", 2 1/4" and 3" poles for stationary front pole
- stationary front pole and TBKT214-H or TBKT300-H bracket must be ordered separately
- returns need to be specified for front pole and back traversing track
- batons and finials sold separately
- rings are available for front pole and are sold separately

heavy duty traverse systems

heavy duty traverse system

Catalog pages 98-101

Orders with traverse systems up to 16' will incur a \$10 packaging fee, over 16' will incur a \$25 packaging fee.

Product Information

- Single heavy duty traverse system price includes: traversing track, 2 adjustable end brackets, an additional adjustable bracket every 3-4 feet, and 4 glides per foot.
- Sold in 2 foot increments, 4 foot minimum.
- Cut to specified length. Fall off will not be saved or shipped.
- Track maximum length up to 240" (20 ft.).
- Track and matching bracket available in antique gold, bronze or white.
- Glides and end pulleys available in white only.
- Center or one-way draw available.
- Fascia, if selected, in 1 7/8" slim round, 2", 2 1/4" or 3" round wood profiles available up to 192". 2 1/4" flat fascia is available up to 144". Fascia is installed directly onto front of traverse system

track. Fascia over 16 feet will be spliced.

- 1 7/8" slim round and 2 1/4" flat smooth fascia do not accept finials. Not available for back fascia on Double Systems or Double System with Back Traverse and Stationary Pole in Front.

Please Specify

- Item number for track or track with wood fascia.
- Track length (track and fascia are the same length).
- Track and matching bracket color (if not specified, we will select color to match fascia finish).
- Bracket return: 3 1/2" or 6" (adjustable, see page 69 for details).
- Cord location: right or left.
- Draw: center, one-way stack right or one-way stack left.

- Number of glides if different than 4 per foot.
- Pinch pleat or Ripplefold carriers.
- Cord drop (standard is 120"). Additional length available upon request
- Finish name and number for fascia, if selected.

Options

- Custom ceiling mount bracket page 69.
- Additional brackets page 69.
- 3 1/2" or 6" mitered return(s) see below.
- Standard splices and blended splices for fascia over 16', see below.

Additional Traversing Configurations

Pricing for Double Systems and other configurations are based on Single System pricing. See page 63 for details.

heavy duty traverse brackets

HEAVY DUTY TRAVERSE SYSTEM

includes 1 track, components, your choice of HDTB35-H or HDTB-H brackets, and fascia with fascia clips when applicable. Pricing for Double Systems and other configurations are based on Single System pricing.

HEAVY DUTY STACK BACK CALCULATION (each drapery panel)

Heavy Duty pinch pleat: master carrier + (# glides on panel x .75") + 2.75" = stack per drapery panel

Heavy Duty Ripplefold*: master carrier + (# glides on panel x .625") + 2.75" = stack per drapery panel

*note: number of glides on panel depends on which fullness of Ripplefold tape being used. Consult your workroom for quantity.

EX: Heavy Duty pinch pleat, 20ft. one-way draw (standard 4 glides per ft.)

$$4.25" + [80 \text{ glides on panel} \times .75"] + 2.75" = 67" \text{ stack back, per drapery panel BEFORE drapery fabric is installed}$$

Please note: Calculations result in Stack Back Width BEFORE drapery fabric is installed. Stack back width will increase once draperies are installed. Factors such as thickness of drapery fabric, type of drapery pleat, and fullness of treatment affect the final stack back width. Please consult your workroom to determine your final stack back based on your draperies.

ANSI Standards: Child Safety Warning Tags

**ANSI Standard 100.1:
Safety of Corded Window
Coverings**

Requires warning tags for child safety on all interior drapery hardware and window covering products that incorporate cords, bead chains, cord shrouds or any type of flexible loop control device in their operation INCLUDING sales collateral materials.

wall mount brackets

Available in White, Bronze or Antique Gold

Available in White, Bronze or Antique Gold

Available in any TFC painted finish. Sold separately.
Use with Single Corded Track.

This bracket allows stationary panels on a full 2", 2¼" or 3"D wood pole in front of a single corded traverse track.

Optional back fascia will be clipped to track. Diagram depicts ensemble when back fascia is desired.

Available in any TFC painted finish. Sold separately.
Use with Single Corded Track.

Please note: only Custom Ceiling Mount Bracket will accommodate fascia and finials.

Available in Silver

Available in any TFC painted finish. Sold separately.

When ordering, specify:

- A. fascia diameter and profile
- B. projection to carrier and/or to front of fascia.
- C. drop from ceiling to carrier eyelet and/or from ceiling to top of fascia (tip: finial must clear ceiling).
- D. width of mounting plate if longer than 2½".

Somfy motorized traverse systems

Pinch Pleat or Ripplefold

INCLUDED IN SYSTEM: SOMFY® MOTORIZED TRAVERSE TRACK WITH MOTOR AND REMOTE

Somfy motorized track

- track sold in 1 foot increments, 6' minimum
- maximum continuous length is 20'; spliced lengths up to 36'
- includes one motor, standard remote control 5-channel transmitter per track, and fascia with fascia clips when applicable
- available in antique gold, bronze or white; track finish will complement fascia finish
- end drive gears in white only
- may be ordered with or without fascia
- curved tracks available with minimum 11.8" radius; curving fees apply

Somfy Glydea® 35e motor

- light duty motor; 1 per track
- maximum drapery weight for light duty motor: 77 lbs
- maximum length for light duty motor: 32'
- 110V Power Supply cord with plug: 120" cord length
- motor can be mounted on left or right for center draw, or top mounted
- return hooks/snaps included; white
- brushed aluminum finish
- 5 year warranty on motor

Somfy Glydea® standard remote control transmitter

- (multi-channel hand held remote)
- 5¼" H x 1½" W
 - 1 remote control per track
 - 5 channels
 - programmable My Position to set your favorite drapery position
 - white

Somfy Glydea® 60e motor

- heavy duty motor, 1 per track
- maximum drapery weight for heavy duty motor: 132 lbs
- maximum length for heavy duty motor: 36'
- 110V Power Supply cord with plug: 120" cord length
- motor can be mounted on left or right for center draw, or top mounted
- return hooks/snaps included; white
- brushed aluminum finish
- 5 year warranty on motor

Be sure to select the best motor for your window treatment. Use the Motor Weight Capacity chart below to determine which motor best accommodates your length of track and your drapery weight. The System Features chart on the opposite page lists the varied functions of each motor.

Motor Weight Capacity

		maximum drapery weight per total length of system (lbs)											
		18' or less	20'	22'	24'	26'	28'	30'	32'	34'	36'	38'	40'
somfy.	Standard Glydea™ 35	77	77	77	77	77	77	77	77	-	-	-	-
	Heavy Duty Glydea™ 60e	132	132	132	132	132	132	132	132	132	132	-	-

Note: Capacity ratings are based on internal system friction only. External loads caused by fabric friction, drag, or obstructions will adversely affect pulling capacity or stop motor due to resistance. **Curving:** System curves reduce maximum drapery weight capacity by a minimum of 15% per bend. Please call us regarding weight capacity for your curved track. **Maximum System Lengths:** If you need more than the maximum spliced length for a system, two one-way systems can butt against each other behind fascia. Must be specified on your order form. An additional arm component is needed to create an overlap between the two individual systems; sold separately.

Motorized Traverse System

includes 1 motor with power supply (1 per track), track(s) with components, brackets, and 1 standard transmitter (1 per track), and fascia with fascia clips when applicable. Somfy transformers are within the Somfy motor housing.

Single and Double without Fascia can be curved for an additional fee:

Somfy Glydea™

Please note: Somfy Glydea™ systems can be curved with a minimum 11.8" radius. All curves require a template. **Curving track reduces weight capacity of motor. Please refer to motor specifications above.**

TFC Motorized Traverse Tips

- Specified custom cut length indicates track length including drive gears; fascia will be 1/4" longer at each end of track (1/2" total); mitered fascia will be 1 1/2" to 1 3/4" longer at each end of track (3 to 3 1/2" total).
- Track and fascia will be spliced in the center of overall length.
- Blended fascia available for an additional fee per blend; TFC will properly connect splice(s) and ship your fascia in one continuous length.
- Back fascia can accommodate decorative end caps; decorative end caps sold separately.
- Somfy Motorized Traverse Systems carry a 5 year warranty; **WARNING:** Modifications of internal components will void Somfy warranties.

Quantity Per System

	6'	7'	8'	9'	10'	11'	12'	13'	14'	15'	16'
Pinch Pleat Glides	24	28	32	36	40	44	48	52	56	60	64
Brackets	3	3	4	4	4	5	5	5	6	6	6

Somfy glides are 4 per foot

Somfy brackets are 1 every 3-4 feet

Motorized Stack Back Calculation (each drapery panel)

Somfy: master carrier + (# glides on panel x carrier width) + 3.75" = stack per drapery panel

Ex: Somfy 10ft. center draw, pinch pleat (standard 4 glides per ft.)

2.75" + [(40/2) x .5"] + 3.75" = 16.5" stack, short master panel *BEFORE* drapery fabric is installed

6.75" + [(40/2) x .5"] + 3.75" = 20.5" stack, overlap master panel *BEFORE* drapery fabric is installed

Please note: Calculations result in Stack Back Width *BEFORE* drapery fabric is installed. Stack back width will increase once draperies are installed. Factors such as thickness of drapery fabric, type of drapery pleat, and fullness of treatment affect the final stack back width. Please consult your workroom to determine your final stack back based on your draperies.

BTX motorized traverse systems

Pinch Pleat or Ripplefold

INCLUDED IN SYSTEM: BTX MOTORIZED TRAVERSE TRACK WITH MOTOR AND REMOTE

- BTX motorized track**
- track sold in 1 foot increments, 6' minimum
 - maximum continuous length is 20'; spliced lengths up to 40'
 - includes one motor, BTX transformer, standard remote control 6-channel transmitter per track, and fascia with fascia clips when applicable
 - available in antique gold, bronze or white; track finish will complement fascia finish
 - may be ordered with or without fascia
 - curved tracks available with a minimum 18" radius; curving fees apply

- BTX 120 DC motor**
- heavy duty motor, 1 per track
 - maximum drapery weight for heavy duty motor: 120 lbs
 - tandem motors available for increased weight capacity
 - maximum length for heavy duty motor: 40'
 - 24V transformer with cord with plug: 120" cord length is standard, longer lengths available
 - motor can be mounted on left or right for center draw
 - white finish

BTX-DC standard transmitter 6 channel, white

BTX transformer only for BTX-DC-120 motors

Motor Weight Capacity

	Motor	maximum drapery weight per total length of system (lbs)											
		18' or less	20'	22'	24'	26'	28'	30'	32'	34'	36'	38'	40'
BTX®	Heavy Duty BTX-DC-120 Tandem	120 240	118 238	116 236	114 234	112 232	110 230	108 228	106 226	104 224	102 222	100 220	98 218

Note: Capacity ratings are based on internal system friction only. External loads caused by fabric friction, drag, or obstructions will adversely affect pulling capacity or stop motor due to resistance. **Curving:** System curves reduce maximum drapery weight capacity by a minimum of 15% per bend. Please call us regarding weight capacity for your curved track. **Maximum System Lengths:** If you need more than the maximum spliced length for a system, two one-way systems can butt against each other behind fascia. Must be specified on your order form. An additional arm component is needed to create an overlap between the two individual systems; sold separately.

Motorized Traverse System

includes 1 motor with power supply (1 per track), track(s) with components, brackets, and 1 standard transmitter (1 per track), and fascia with fascia clips when applicable.

Single and Double without Fascia can be curved for an additional fee:

Please note: BTX DC systems can be curved with a minimum 18" radius for pinch pleat, 20" minimum radius for Ripplefold. Curving track reduces weight capacity of motor. Please refer to motor specifications above.

Quantity Per System

	6'	7'	8'	9'	10'	11'	12'	13'	14'	15'	16'
Pinch Pleat Glides	24	28	32	36	40	44	48	52	56	60	64
Brackets	3	3	4	4	4	5	5	5	6	6	6

BTX glides are 4 per foot
BTX brackets are 1 every 3-4 feet

Motorized Stack Back Calculation (each drapery panel)

BTX: master carrier + (# glides on panel x carrier width) + 3.375" = stack per drapery panel

Ex: BTX 20 ft. one-way draw, Ripplefold 80% fullness
 $6.25" + (98 \times .563") + 3.375" = 64.79"$ stack, underlap master panel *BEFORE* drapery fabric is installed

Please note: Calculations result in Stack Back Width *BEFORE* drapery fabric is installed. Stack back width will increase once draperies are installed. Factors such as thickness of drapery fabric, type of drapery pleat, and fullness of treatment affect the final stack back width. Please consult your workroom to determine your final stack back based on your draperies.

motorized traverse systems

Wall Mount Brackets

Somfy Single Motorized Bracket (HDTB35-S)

Available in White, Bronze or Antique Gold

Somfy Double Motorized Bracket (HDTB-S)

Available in White, Bronze or Antique Gold

BTX Single Motorized Bracket (HDTB35-B)

Available in Gold, Bronze or White

BTX Double Motorized Bracket (HDTB-B)

Available in Gold, Bronze or White

Custom Traverse Bracket (TBKT214-S or -B)

Available in any TFC painted finish. Sold separately.

Use with Single Track.

Custom Traverse Bracket (TBKT300-S or -B)

Available in any TFC painted finish. Sold separately.

Use with Single Track.

This bracket allows stationary panels on a full 2", 2 1/4" or 3"D wood pole in front of a single motorized traverse track.

Optional back fascia will be clipped to track. Diagram depicts ensemble when back fascia is desired.

Ceiling Mount Brackets

Please note: only Custom Ceiling Mount Bracket will accommodate fascia and finials.

Somfy Ceiling Mount Bracket (CMBC-S)

Available in White only

BTX Ceiling Mount Bracket (CMBC-B)

Available in White only

Custom Ceiling Mount Bracket (CMTB-S or -B)

Sold separately

When ordering, specify:
A. fascia diameter and profile.
B. projection to carrier and/or to front of fascia.
C. drop from ceiling to carrier eyelet and/or from ceiling to top of fascia (tip: finial must clear ceiling).
D. width of mounting plate if longer than 2 1/2".

special finishes

custom finishes and custom color match

Beyond our standard finishes, we can match any finish, fabric swatch, wood trim or paint color specified from your favorite paint company. A finish sample or paint color, sheen level and manufacturer must be provided by the customer. The Finial Company will then provide a strike-off sample to the customer on any wood or steel pole profile as requested. Customer approval of the strike-off sample is required before production will begin.

100 Polished Steel finish

Many, but not all, of our raw steel products can be polished and given a clear topcoat to achieve a finished look. Steel is not uniform in color tone and will vary in shades of gray and silver. Polishing raw steel parts requires considerably more preparation work than our other finishes and therefore incurs additional charges.

A polished steel finish is NOT available on the following items that appear in the steel section of the 2018 catalog:

TRT	EB3
EC1	CSL16
SELB	EB1
EB5	EC3
RF4	123ELB
EB2	EB6

clear coating

Clear coat can be added on any finish to achieve your preferred sheen level. Sheen choices are matte, satin and high gloss as shown in the catalog.

outdoor hardware finishing

Available on all Outdoor Hardware product as listed in the catalog. See pages 45-48. 20% surcharge on items in outdoor finishes that are not part of the Outdoor Hardware collection.

standard finishes on 1³/₈" metal collection:

1³/₈" Metal Collection finials, brackets, poles and rings are available in any of our standard hand painted finishes for a 30% surcharge on these items.

finish fees

(all prices below are SRP)

Custom match/custom finishing

includes modifying existing TFC finishes and painting product from any manufacturer in any finish not included in the 2018 Drapery Hardware Catalog. 10-15 day lead time:

single color: 10% of order value, minimum of \$100.00 per order

multicolor: 15% of order value, minimum of \$150.00 per order

Polished steel finishing:

30% of order value, min of \$150.00 per order

Clear coating:

10% of order value, min of \$100.00 per order

Outdoor hardware finishing:

20% of order value

1³/₈" Metal Collection standard finishing:

30% of order value, no minimum order

Touch up paint:

\$20.00 per vial

Strike-offs:

\$70.00 per finish/strike-off. If finish is approved, 1/2 of strike-off fee will be rebated on order.

Color chip samples:

\$3.00 per chip

repaint fees

Includes painting product from any manufacturer in a standard TFC finish included in the 2018 Drapery Hardware Catalog. 10-15 day lead time. *(all prices below are SRP)*

Poles	\$15.00 per foot
Bracket	\$20.00 ea
Tieback posts	\$15.00 ea
Rings	\$5.00 ea
Finials or end caps	\$20.00 ea
Elbows	\$20.00 ea
Rosettes	\$20.00 ea
Crests	\$60.00 ea

PRICING AND TERMS

Prices found in The Finial Company Retail Price List are our suggested retail prices. Prices are subject to change without notice. Prices are quoted exclusive of freight and packaging. The buyer should always inspect the product upon receipt.

IMPORTANT: Please note that your order will be placed with an authorized Finial Company Distributor. While most of the following will generally apply, your distributor may have terms and conditions of sales that will vary from what is stated here.

Estimated Lead Times: Purchase orders are processed once they are received by The Finial Company. Incomplete information will delay processing and shipping. The Modern Metal and Metal Collection will ship within 48 hours of the order confirmation. Painted product (including painted products from the Metal Collection), custom products and traverse systems will ship within 10-15 business days of the order confirmation.

Rush Orders: Rush orders are available. An additional 30% charge applies to product and all fees excluding freight and packaging. Rush orders will ship within 5 business days. The 30% rush charge is available for all product except arch rods, bay windows, custom brackets, and mitered returns. If an order is received after 12:00 C.S.T., the next business day will count as the first day of production.

IMPORTANT: Please note that rush orders are not always available due to the nature of scheduling in a strictly custom manufacturing environment. Processing time for a rush order is in business days, (excluding holidays) not calendar days.

Shipping (NET Fees): Poles or tracks over 96" must be shipped by common carrier. For current common carrier freight rates go to www.thefinialcompany.com/freightrate. Expedited shipments are not available in all areas. Any additional charges for expedited shipments will be in addition to the published net fees.

The following orders will be subject to actual freight costs:

- shipments going to Alaska, Hawaii, Idaho, Montana, Puerto Rico or any international destination.
- orders with poles or tracks exceeding 96" in length
- orders that exceed a \$2,500 SRP

Packaging Fees (NET Fees): A net packaging fee of \$10.00 per order will apply to any order that has a pole. A net packaging fee of \$10.00 will apply to any order with a traverse rod less than 16 feet. The net packaging fee increases to \$25.00 for all orders with arched rods; bay windows; rods with returns; motorized traverse track; or poles, rods and corded traversing track 16 feet or longer.

RETURNS, CHANGES & CANCELLATIONS

All orders are considered "custom". No changes or cancellations will be accepted later than 24 hours after order is confirmed. All returns must be authorized by The Finial Company customer service department, and are authorized at our discretion, given the circumstances and nature of each custom order.

DAMAGED GOODS

Immediately upon receipt, your order should be inspected to ensure that there is no concealed damage from shipping. Claims on damaged merchandise must be made within 15 days of receipt. No claims after 15 days will be accepted. If your order is damaged in shipping, carriers require that all packing materials be kept in order for a representative to inspect the goods. Our policy is that we replace damaged product per the original order.

Please note on the bill of lading if there is any possibility of concealed damaged. If shipping through a 3rd party, distributor is responsible for claiming damages and the remakes will be at charge.

PRODUCT INFORMATION

Wood Poles: Wood poles are sold in 2 foot increments, 2 foot minimum. We will cut your pole to specification, but we do not save or ship the fall off.

Steel Poles: All steel poles are sold in 1 foot increments, 2 foot minimum. We will cut to your specification, but we do not save or ship the fall off.

Metal & Acrylic Poles: All metal and acrylic poles are sold in 2 foot increments, 2 foot minimum. We will cut to your specification, but we do not save or ship the fall off.

Corded or Baton Draw Traverse Tracks: Corded or baton draw traverse tracks are sold in 2 foot increments with a 4 foot minimum. We will cut to your specification, but we do not save or ship the fall off.

Motorized Traverse Tracks: Motorized traverse tracks are sold in 1 foot increments with a 6 foot minimum. We will cut to your specification, but we do not save or ship the fall off.

Support Brackets: We recommend support brackets every 3-4 feet.

Installation: Mollie bolts and nail anchors are recommended for all installations, but are not included. We strongly recommend using a professional installer for our hardware.

Force Majeure: The Finial Company is not liable for any performance failure that arises from any cause not within its control.
