

Invitation to All Dairy Producers

Dairy Together Road Show Coming to California Monday, April 29 in Modesto, CA

The **Dairy Together Roadshow** is coming to California and all dairy producers are invited to participate. **Dairy Together** is a nationwide effort to bring dairy producers around the

country together to forge solutions to the crisis dairy producers face due to chronically low milk prices that are well below production costs.

California Dairy Campaign is supporting a *three-point plan or a three-legged stool approach: fair milk prices, farmer-led inventory management and smart trade policy.* At the Dairy Together Roadshow we will join with dairy producers and leaders from around the country to determine the best way to restore profitability for dairy producers by working together to manage milk inventories to meet market demand. *All are invited to join us for a lunch meeting in Modesto on April 29, 2019.*

**The California Dairy Together event is set to take place on
Monday, April 29 in Modesto at the
Stanislaus County Agricultural Center
3800 Cornucopia
12-2:30 p.m. Lunch Included
Please RSVP to Bertha Medina in the
California Dairy Campaign office
209-632-0885
or by email: cdc@californiadairycampaign.com**

With events planned across the nation, the **Dairy Roadshow** is focused on improving the situation for dairy farmers. Our goal is to share information and

present options with as much research base as we are able to compile, present those ideas and engage farmers and policy makers in community conversations.

The Roadshow welcomes dairy producers of all backgrounds and is being organized by National Farmers Union, National Farmers Organization, Holstein Association USA, California Dairy Campaign and state Farmers Union organizations from Wisconsin, New England, Michigan, Minnesota, South Dakota, California, and the Rocky Mountain region. We're focused on policy changes that align with our organizations' core values of family farming, fair economic policies, and thriving rural communities.

We're looking beyond milk labeling, increasing exports, and dairy insurance plans to actual long-term solutions. Join us in identifying actions American dairy farmers can take to advance our organizing efforts, direct our advocacy and influence policy makers.
