How Sign Up For The Defeat Myeloma Walk/Run
This is where it all begins, and where you can start to make a difference!

This page introduces the race, the reason behind our fundraising as well as how these funds will benefit myeloma patients. (For more details, select “Fundraising”)

This is also the start of the registration process, or if you would rather, a quick path to sign up to volunteer at the race.

At the top of the page, select what you would like to do: register, volunteer, fundraise, etc.
To Register

If you selected “Register” on the main page, you will be brought to this page.

Select the orange “Register Now” button to move to the next step.
Registration – Step 2

Next, you will be brought to this page, where you select the Green “Register” button.
This is the registration page where most participants will sign up for the walk or the run (same price).

Kids will receive a discount if they are participating.

For Myeloma Survivors or Current Patients, you should page down where you will see.....
Registration – Step 4

At the BOTTOM of the registration page is where Survivors register. You will notice that there is no fee for Survivors!

Select “1” for yourself, then select “Checkout”. You will be brought to the Checkout page.
Selecting Your Team

After registering, this is where you can set up your team, or join an already established team.
Creating Or Joining a Team

If a team has already been formed and has registered, simply select “Join A Team”. You will be brought to a page where you can input the team name and then add yourself to their page.

If you would like to create your own team, select “Start Your Own Fundraiser”. This will enable you to select a name for your team, etc.

Although this says “Start Your Own Fundraiser” all you are doing is creating a team for the Defeat Myeloma Event so that you can raise funds for myeloma research at Fred Hutch.
Naming Your Team, Etc.

On this page you get to

- Select the name for your team

- Decide on your Fundraising Goal

- Write a brief introduction to your team, why this event means so much to you, where the funds raised will go, etc. Whatever you feel the appropriate message is for people who will be viewing this sign and contributing to the worthy cause!
Don’t forget to confirm that you are not a Robot!

Once that is done, then select “Next”
The Wall of Fame!

Your team will then be displayed on the Wall of Fame!

You will be able to access your team page to update your fundraising blurb, add a picture, increase your fundraising goal, etc.
Your Fundraising Page

Your fundraising page will look like this...probably with a much better picture, though!

By sending this link to your friends, family, etc. they will be brought to your page, where they will have the choice to donate to your team total, register for the Defeat Myeloma Event or join your team.

You are now set to go!
If you would rather not walk/run, then you can still help this cause by volunteering.

We can always use more assistance supporting the runners, signing up new runners, etc.

On the main page select “Volunteer” at the top of the page.
To Volunteer

Next, select the “Sign Up” button to see what opportunities are open.
Decide How You Want To Help

There are a lot of choices on how to assist.

Look for the green “Sign Up” for open spots.

The Race is June 24th…be sure to sign up for the correct event!

You will be contacted with more information as the event draws closer!
If You Still Have Questions....

- If you still have questions, or if you run into difficulties, please feel free to drop a line to Run For Good, our race organizing team: info@runforgoodracingcompany.com

- They will be back to you shortly and help guide you around any obstacle you may have run into, problems you may have encountered, or other challenges you may be facing while trying to sign up for this event.

- We look forward to having you join this great event, and to help us beat two goals we have set out for this year
  - Beat our 2017 total of 40 Survivors attending the Defeat Myeloma event
  - Raising more than $100,000 to support Myeloma research at Fred Hutch.
