

Do you care for family or friends who need assistance because of illness, disability, or aging?

Discover how **CareMaps** can help you understand and improve your family's experience.

You're invited to learn about the concept of **CareMaps** — a drawing of the people and services in your care network. CareMaps can help you better understand and manage your own situation, identify missing resources, and describe your needs to others. In this free two-hour workshop, you will learn to create and use your own CareMap.

¿Cuida usted de familiares o amistades que tienen necesidad de asistencia ya sea por enfermedad, incapacidad o edad avanzada?

Descubra como los **CareMaps** pueden ayudarle a entender y mejorar su experiencia familiar.

Esta invitado a aprender sobre el concepto de **CareMaps** — un diagrama representativo de las personas y servicios en su red de cuidado. Lo Care-Maps le ayudaran a obtener un mejor entendimiento de sus situación, manejarla de manera mas eficiente, identificar recursos adicionales antes no vistos y poder explicar sus necesidades a otros. En este taller gratuito de dos horas aprenderá a crear y usar su propio CareMap.
