1	Jaw Pneumatic Parallel Gripper Mechanism
2	ABRASIVE BELT GRINDER
3	Accident Avoiding System For Punching Machine
4	Air Leak Detector
5	Air Pollution Monitor
6	Water Fuel Engine With Power Generation
7	Emission Control Of Two Stroke Engine Using Multi Spark
8	Solar Car Lift Jack
9	Latest Prevention Kit For Driving Two Wheeler Without Helmet
10	Low-Cost Harvester Machine
11	Automatic Drilling And Tapping Machine
12	Automatic Head Light Focal Adjustment Depend On Steering Angle
13	Automatic Paint Spraying With Conveyor System
14	Automatic Pneumatic Bumper Adjust Mechanism
15	Automatic Pneumatic Can Crusher
16	Automatic Pneumatic Holding Gripper
17	Automatic Trolley For Material Handling System In Industry
18	Automatic Unmanned Railway Gate
19	Conversion Of Salty Water Into Pure Water By Safe Water Technologies
20	Design And Fabrication Of Tension Less Bike
21	Design And Fabrication Of Hydraulic Jack (Capacity 7 Ton)
22	Design And Fabrication Of Hydraulic Puller
23	Design And Fabrication Of Keyway (Slotting Fixture) Attachment For Conventional Lathe
24	Design and Fabrication of Low Cost Sugarcane Harvester
25	Design and Fabrication Of Portable Integrated Port Type power
