If Tom, aged 20, takes the step to invest \$5,000.00 with a bank offering an interest rate of say 3% per annum, and adds just \$1,000.00 a year (that's \$20.00 a week) and lets it compound until he retires at 60 years of age, his nest egg will be just under *\$92,000.00.

Investing with a Bank:

Initial deposit:	\$5,000
Regular deposits:	\$40,000
Total interest:	\$46,711

Total savings: \$91,711

However, if Tom, aged 20, had taken the step to invest \$5,000.00 with Sagacious Investment Services and added just \$1,000.00 a year (that's \$20.00 a week) and let it compound until he retired at 60 years of age his nest egg would be over *\$665,000.00.

Investing with Sagacious Investment Services:

Initial deposit:	\$5,000
Regular deposits:	\$40,000
Total interest:	\$623,889

Total savings: \$668,889

**This assumes that the interest rate offered by the bank and Sagacious Investment Services remains the same for the duration of the investment.*
