

## **GOD, SHOW ME A MIRACLE**

A young lady had been waiting for her date to pick her up. She was dressed up and waiting patiently. However, by the time he was an hour late she figured she had been stood up. So, she took off her makeup, put on her pajamas, gathered all the junk food in the pantry and sat down to watch TV with the dog. As her favorite show was just coming on, the doorbell rang. It was him. He said, "I'm two hours late, and you're still not ready?"

This may not be the best parallel, but let's say the young man represents Jesus and we are the young lady. We patiently are waiting until the day Jesus returns, and some of us decide to scrap the facts and signs Jesus has presented us with and instead we decide to seek some other signs that might work. What did we do? Maybe we sought the advice of a psychic. Are psychics ever right in their answers? Somehow they might possibly get some right, but can they get them all right? No! But let me give you the facts about someone who has and will.

Dr. Peter Stoner, Professor Emeritus of Science at Westmon College expressed it like this. If just seven of these 108 prophecies of the Messiah in the Bible were fulfilled in the life of one person, the probably or chance would be 1 in  $10^{17}$ . That is 1 in 100,000,000,000,000,000. The chances of you winning the lottery are much, much greater. Dr. Stone said that would be the same as covering the state of Texas two feet deep with silver dollars, marking one the coins, mixing them all up, blind folding a person and giving them one chance to pick up the right coin.

Let me ask you again, "How many fulfilled prophecies do we need to prove Jesus is the Messiah?" How many do you need? The facts are laid out in front of you. Do you need any more signs or wonders?

A crusty old man went into the bank and asked for \$250.00 in ones and fives. As the line behind him grew the teller counted out the money and passed it over to the old man. The old man said, "I believe I'll count that myself." As the line stretched out the door he slowly counted the money a second time. "Well," said the teller when he finished, "it's all there, isn't it?" "Yes," answered the old man, "but just barely."

Well, the fact is it was either there or it wasn't, and the fact is Jesus is our Savior or He isn't? I believe He is. What about you?
