

Hi our names are Hansel and Gretel

Our foster family says we are the sweetest, cutest, little doxies, and a joy to have in our home. We are a bonded pair of black and tan doxies. We are house trained, crate trained (all you need to do is point at the crate and we jump in with our tails a wagging), and good on a leash too! We are good with kids and love to get attention from them. We love to play and get along with other dogs. We do not bark much only when we see someone new or if the whole pack starts. We love to be your lap dog when it is time to settle in. We have a lot of love to give. Would you be our forever home?
