

Thank you Milestones!

Cannot say enough about this band. I hired the Milestones for my high school reunion and they were fantastic! They brought so much fun and energy to the party, playing the 80's music we grew up with and the hot, current stuff too. They had such an amazing playlist, with everything from hard rock to dance to rap and even some country. They did the songs everyone loves to sing along with and some obscure stuff that I hadn't heard in ages!

Hard to believe they were only 3 guys up there. They did an amazing job at a very reasonable price. I owe the success of the night to them, as people were a little reserved at first, not having seen each other in over 20 years, but once the band got going, everyone was up and dancing and singing and having a blast. It definitely took me back to our old school dances!

I highly recommend them for any event. Definitely the best bang for your buck.
