

Consumables & Production Tool Supply Line Card

Covering the TEX-MEX Border and the Country of Mexico by supporting our Distribution Partners with our Material Handling and Production Tools and Supply Product Lines

Manufacturers' Represented	Manufacturer's and Products represented on this page are typically sold and supported through a network of local, regional, and national distributors.	Web Link
	At Chemtronics, our mission is simple – to continue as the industry's innovative technology leader providing our customers with the tools to achieve the highest degree of reliability and productivity. This has made us what we are today: The innovative company known for offering products with precise formulations and optimum cleaning power, the greatest amount of performance possible and true convenience.	www.CHEMTRONICS.com
	For over 25 years Daylight Company has been making magnifying lamps for professionals. Our reputation for innovation has resulted in a wide 'state of the art' range. Our lamps are characterized by superior quality and lenses as well as high light output and robustness. They are all easily adjustable and the light can be positioned exactly where it is needed. All have 6500K color balanced, high contrast light enabling you to work in comfort for longer.	www.DAYLIGHTCOMPANY.com
	Jensen Global dispensing equipment, tips and syringes allow for precise and ergonomic application of a wide range of fluids. These include: adhesives, glues, epoxies, solder pastes, solder masks, RTVs, silicones, sealants, solvents, oil lubricants, greases, inks, paints, additives, chemicals, and more. We offer many different styles and types of dispensing tips, syringes, equipment, squeeze bottles and other accessories for a wide variety of applications. We also manufacture custom dispensing tips for any unique application you may have. If you would like a free sample of a product please contact us. (Except State of Chihuahua)	www.JENSENGLOBAL.com
	Jokari is market leader in the stripping and dismantling technology for all types of wires, cables, and conductors. We produce professional tools for mostly all application areas in which wires must be processed easily, quickly, and safely. Our cable knives, cable and wire strippers are, with a few exceptions, TÜV- and GS-certified - we aim at a safe handling of all our products. As a renowned specialist with more than 45 years of experience we continually develop innovative solutions for all demands and broaden our product range to adapt it to the changing market conditions.	www.JOKARI.de
	All LUXO Microscopes by UNITRON® models feature high-quality achromatic lenses with anti-reflective coatings for superior visual clarity. Optional eyepieces and accessory objective lenses can be added to provide a wider range of magnification powers. A choice of light sources and mounting options enable the product set-up best-suited for each individual application. Digital imaging systems are configurable to allow capturing of images to catalog or share inspection results and observations, for archiving or communicating electronically. The end result is increased productivity with an easy-to-use product line.	www.UNITRONUSA.com
	M & A Matting's high quality and innovation are known worldwide.
