In today's world, it is vital that our children have the opportunity to learn about the Catholic faith, to know Christ, and to be surrounded with the belief that our faith is vital to our existence. St. Andrew's School is a great asset to Abilene and the surrounding communities, and I would be honored to serve another term on the school board."

### **SUE KOLLHOFF – School Board Council**

"I'm interested in serving on the St. Andrew's School Board because I value the education my children are receiving and want to ensure the school's continued success. As the mother of two St. Andrew's Students (Claire and Whitney), I have been impressed with many aspects of the education they have received thus far at the school. Their Catholic faith is strengthened through religious education in the classroom, regular Mass attendance, and service to the community. The faculty at St. Andrew's is dedicated to providing a strong academic program and is willing to accommodate specialized student needs to ensure each student performs to the best of his/her abilities. All of this education happens in a caring and nurturing environment, where it is clear the staff truly cares about the students and encourages each one to be the best version of him/herself. If selected, I will support the faculty and staff at St. Andrew's in providing high quality, Christ-centered education."
