

# TRU STEEL Hi CC

## HIGH CARBON, HIGH CHROME TOOL & DIE STEEL

*A Cold Working, High Output Tool Steel  
Highly Resistant to Wear*

### BENEFITS

- Due to high carbon and chrome content, is a must on high production runs.
- Deep hardening steel with the absolute minimum of distortion.
- Excellent machinability and high compressive strength.
- Can be tempered to approximate hardness of 61-63 Rc.

### APPLICATIONS

Blanking Dies  
Extrusion Dies  
Stamping Dies

Coining Dies  
Knurling Dies  
Swaging Dies

Crimping Dies  
Lamination Dies  
Threading Dies

Drawing Dies  
Slitting Dies  
Trimming Dies

Broaches  
Punches

Bushings  
Reamers

Forming Rolls  
Seaming Rolls

Gauges      Hobs  
Taps

### AVAILABILITY

- SIZES:               Rounds from 1/4" – 12"  
                              Squares from 3/8" – 6"
- TYPES:               Flats in all Standard sizes  
                              Precision Ground Flat Stock
