Donald E. Pizzini Memorial Nurse Scholarship Program - Overview

No matter what shape health care takes in the future, there will always be a need for people who provide skilled and compassionate nursing care, especially in the long term care arena. Pursuing a career in nursing will undeniably have its challenges. What shouldn't be a challenge is finding the financial resources to help achieve career goals. To this end, the Montana Health Care Association (MHCA) Scholarship Foundation has established the Donald E. Pizzini Memorial Nurse Scholarship Program.

This program will provide annual scholarships to individuals interested in pursuing a career in nursing or advancing in their nursing career - with an emphasis on long term care. It will help the students and health care workers of today become the caring nursing professionals of tomorrow and facilitate the development of a nursing workforce to meet Montana's current and future needs.

Each year we award one or more scholarships of up to \$1000 to college students from our service area, as well as professionals who are already working in the long-term care field who are interested in pursuing a career in nursing or in advancing in their nursing career.

This program memorializes Don Pizzini, a former President of MHCA. In his many years as administrator of the Cascade County Convalescent Center in Great Falls, and in his work with MHCA, he had a passionate commitment to long term care and the elderly and to the dedicated care givers who worked to give them the quality of life they deserve. These scholarships are awarded in honor of this dedicated, innovative leader.
