

11/13/2013

To all IBT Video and Security, LLC customers,

IBT Video and Security will no longer be providing installation or service on video systems or cameras, After 13 years, I have decided to retire from the security industry and turn the sales and service over to our employees. Several of our current employees have formed a new company to continue to provide service support and new installations to our customers. They can be reached by visiting B.T. Video System at www.btvideosystems.com or by calling 219-989-6586. This is the only company that we would recommend contacting for your video needs and service on your existing equipment, as they are the people you have dealt with for years and are familiar with your equipment.

It has been a pleasure working with you over the years.

Sincerely,

Tim Moore
President
IBT Video and Security
