### ♦ Selected Consultations

2017 – Present **Chief Research Officer. AiR Healthcare Solutions.**

AiR Healthcare Solutions is an international provider of cloud-based disease management care coordination solutions for chronic behavioral health conditions. Provide vision, leadership, and direction for all research-related activities in accordance with the mission of AiR. Specific duties include designing, leading, and coordinating research and evaluation studies of AiR's services; determining and informing the scientific direction of AiR; analyzing existing data sets and conducting appropriate statistical analyses; disseminating research findings to the scientific community and public in the form of peer-reviewed scholarly articles and professional conference presentations; and

recommending and assisting in the implementation of research procedures and policies which serve to improve AiR's operations.

- 2016 – 2018     **Director of Research and Outcomes Studies. Satori Waters.**  
Satori Waters is a drug and alcohol addiction treatment system offering a full continuum of care with multiple locations across south Florida. Designed, implemented, and managed all treatment outcomes studies and related research activities across four residential treatment centers. Additional duties included development of key outcomes and indicators, oversight of data collection, data analysis, and quarterly reporting to inform surveillance efforts, evaluate outcomes, and improve quality of care.
- 2015 – 2017     **Research and Evaluation Consultant. AiR Healthcare Solutions.**  
AiR Healthcare Solutions offers a number of outsourced disease management solutions including individualized care plan management for patients transitioning from acute to continuing care. Evaluated the effectiveness of AiRCare™—a protracted telehealth and coordinated care plan management program—on adherence to continuing care plans and maintenance of abstinence from alcohol or illicit drugs among patients discharged from primary residential treatment. Assisted in the development and writing of AiRCare™ treatment manual, and published scientific articles in peer-reviewed journals.
- 2012 – 2014     **Research and Evaluation Consultant. CRC Health Group, Inc.**  
CRC Health Group is a national provider of treatment and educational programs for adults and adolescents with behavioral health issues. Evaluated the effectiveness of all medication-assisted treatment (MAT) programs for opioid-dependent patients prescribed methadone or one of two sublingual formulations of buprenorphine. Projects have identified various demographic, clinical, and treatment variables associated with differential outcome expectations for certain subgroups of patients. Wrote White papers on select clinical training topics of interest, as identified by the Chief Clinical Officer, and published scientific articles in peer-reviewed journals.
- 2008 – 2014     **Research and Evaluation Consultant. The Change Companies.**  
The Change Companies is a national publishing, consulting, and training organization that develops evidence-based materials and curricula for use in the fields of prevention, treatment, impaired driving, criminal justice, and health care. Evaluated both the efficacy and effectiveness of Interactive Journaling® in reducing various problematic behaviors (e.g., criminal recidivism, high-risk drinking) among select high-risk populations (i.e., local jail inmates and mandated college students) with substance use issues, and published scientific articles in peer-reviewed journals.

## Research Experience

---

2014 – Present	Principal Investigator.	Continuing care for substance use disorders.
2012 – Present	Principal Investigator.	Methadone/buprenorphine maintenance treatment.
2012 – 2014	Principal Investigator.	Brief motivational interventions for alcohol use.
2012	Principal Investigator.	Substance use disorders among chronic pain patients.
2011 – Present	Principal Investigator.	DSM-5/ICD-10 criteria for substance use disorders.
2010 – 2011	Project Coordinator.	Ecological momentary assessment of marijuana lapses.
2010	Co-Investigator.	Marijuana problems assessment.
2009 – 2012	Co-Investigator.	MMPI-2-RF Substance Abuse scale validation.
2009 – 2010	Co-Investigator.	Forensic psychology postdoctoral fellowship training.
2009	Co-Investigator.	Adolescent residential substance use treatment.
2008 – 2010	Co-Investigator.	Criminal recidivism among county jail inmates.
2007 – 2009	Co-Investigator.	Co-occurring mental health disorders among inmates.

2007 – 2009	Co-Investigator.	Intercollegiate student-athlete mental health.
2006 – 2007	Research Assistant.	College retention.
2006 – 2007	Research Assistant.	Automation and decision making.
2005 – 2006	Research Assistant.	Subliminal priming and decision making.

♦ **Selected Research Projects**

2016 – 2018     **Director. *Residential Addictions Treatment Discharge Outcomes Monitoring System.***

Longitudinal multi-site naturalistic treatment outcomes evaluation project. All patients were contacted at pre-determined follow-up intervals through 12 months post-discharge from the primary treatment episode and administered telephone-based structured interviews to document substance use in addition to improvements in health and social functioning as well as reductions in threats to public health and safety. Patients were assessed for relevant relapse risk indicators (craving, readiness to change, motivation, etc.) and outcomes from pertinent domains of functioning (health care utilization, occupational functioning, legal involvement, quality of life, etc.) were documented.

Agency: Satori Waters.

2015 – 2016     **Principal Investigator. *Naturalistic Evaluation of a Protracted Recovery Assistance Program.***

Longitudinal evaluation investigated the effectiveness of a 12-month telephone-based care plan management program for substance-dependent patients discharged from primary residential treatment on a number of clinical outcomes, including patient adherence to continuing care plans, quality of life, re-admission to any residential level of care, and abstinence from alcohol and illicit drugs.

Agency: AiR Healthcare Solutions.

2012 – 2014     **Principal Investigator. *Evaluation of CHOICES About Alcohol: A Brief Alcohol Abuse Prevention Program.***

Randomized controlled trial investigated the efficacy of *Interactive Journaling*® in reducing alcohol use and alcohol-related problems among college students mandated by campus officials to participate in a brief alcohol intervention due to violation of university policies on alcohol use.

Agency: Louisiana State University, Humanities & Social Sciences Summer Research Funding Award.

2009 – 2012     **Co-Investigator. *Validation of the Minnesota Multiphasic Personality Inventory-2-Restructured Form (MMPI-2-RF) Substance Abuse Scale.***

Investigated the clinical utility and validity of the MMPI-2-RF Substance Abuse scale in identifying cannabis use problems and behaviors among undergraduate college students with and without a cannabis use disorder.

Agency: Pearson Assessments Research Assistance Program Award.

2010 – 2011     **Project Coordinator. *Ecological Momentary Assessment of Lapse and Abstinence during Marijuana Quit Attempts.***

Investigated the immediate antecedents of marijuana use among adult community members undergoing a marijuana quit attempt utilizing ecological momentary assessment to monitor and collect daily ratings of marijuana craving, negative affect, coping strategies, and marijuana use.

Agency: Louisiana State University, Office of Research & Economic Development.

2008 – 2009     **Co-Investigator. *Journaling to Improve Treatment Engagement and Reduce Recidivism (JITERR)*.**

Randomized controlled trial investigated the effectiveness of *Interactive Journaling*® in reducing criminal recidivism among county jail inmates with a substance use disorder.

Agency: The Change Companies.

♦     **Federal Grant Activity**

2017             **National Institutes of Health (NIH); National Institute on Drug Abuse (NIDA).**

R03 Project Title: *Compatibility and Correlates of DSM-5 Opioid, Cannabis, and Cocaine Use Disorder Diagnoses: Findings from the National Epidemiologic Survey on Alcohol and Related Conditions-III*

Role: Principal Investigator; Status: Council Review.

2018             **National Institutes of Health (NIH); National Institute on Alcohol Abuse and Alcoholism (NIAAA).**

R15 Project Title: *Three-Year Clinical Course of DSM-5 Mild, Moderate, and Severe Alcohol Use Disorder among a Nationally Representative Sample of U.S. Adults.*

Role: Principal Investigator; Status: In Preparation.

Primary clinical training rotations included the *Addictive Disorders Treatment Program* (ADTP) and the *Substance Use and Posttraumatic Stress Disorder Treatment Program* (SUPT).

- ♦ The ADTP offers treatment services for Veterans diagnosed with substance use disorders across multiple levels of care, ranging from standard outpatient treatment to a 16-bed residential program. Clinical responsibilities within the Substance Abuse Residential Rehabilitation Treatment Program included conducting comprehensive biopsychosocial assessments, serving as a Treatment Coordinator (i.e., intensive case manager) for individual patients, participating in weekly interdisciplinary treatment team meetings, and providing individual and group therapy services. Group therapy services included facilitating mindfulness-based and cognitive-behavioral relapse prevention skills groups. Clinical responsibilities within the outpatient program included providing individual therapy for patients with co-occurring disorders and facilitating a weekly cognitive-behavioral anger management group.

Clinical Supervisors: Daniel C. Williams, Ph.D.; Andrew C. Voluse, Ph.D.

- ♦ The SUPT Program provides assessment and treatment to Veterans with co-occurring substance use and posttraumatic stress disorder. Individual and group-based

interventions are available for Veterans who have experienced combat and/or other traumas (e.g., child abuse, military sexual trauma). Conducted routine intake assessments and provided individual and group therapy using exposure-based and cognitive processing approaches for PTSD, as well as 12-step and cognitive-behavioral therapy for substance use disorders.

Clinical Supervisor: Kevin M. Connolly, Ph.D.

2013 – 2014 **Predoctoral Clinical Residency. Metropolitan Detention Center–Los Angeles (MDC-LA), Federal Bureau of Prisons, U.S. Department of Justice.**

Primary clinical training experiences included rotations in the specialty areas of *Forensic Evaluation*, *Severe Mental Health*, and *General Population*.

- ♦ **Forensic Evaluation.** Psychology Services at MDC-LA is designated as one of the Forensic Study Centers in the Federal Bureau of Prisons system. Conducted court-ordered forensic evaluations on inmates from all over the country and wrote comprehensive psychological reports using a multi-method approach to opine competency to stand trial, criminal responsibility during the commission of an offense, and other evaluation questions posed by the court. Evaluations involved the administration and interpretation of a full battery of tests, including measures of intelligence, personality, achievement, effort, psychopathy, malingering, and neuropsychological and legal competency functioning.

Clinical Supervisor: Lisa Hope, Psy.D.

- ♦ **Severe Mental Health.** The Severe Mental Health rotation focused primarily on inmates housed on the Special Programs Unit (SPU), which serves as a placement for inmates on formal suicide watch precaution status and inmates diagnosed with severe mental illness or medical conditions that require increased supervision or monitoring than afforded on a general population housing unit. Conducted routine mental status evaluations and suicide risk assessments, and provided crisis intervention, case management, and brief psychotherapy in preparation for successful transition into general population housing, if applicable. Facilitated various cognitive-behavioral groups, managed all operations for the Telepsychiatry Clinic for inmates in need of pharmacological intervention, and provided consultation to correctional staff concerning conflict negotiation and resolution, suicide prevention, and management of inmates with severe mental illness. Group therapy services included a life skills psychoeducational group for inmates with severe mental illness as well as all drug and alcohol use programming in the institution.

Clinical Supervisor: Samantha Shelton, Psy.D.

- ♦ **General Population.** The General Population rotation focused primarily on the provision of general mental health services to inmates. Screened and assessed the mental health needs of newly admitted inmates, referred inmates for psychiatric consultation, conducted brief supportive counseling for adjustment concerns, provided crisis intervention and case management, and responded to inmate requests to staff for mental health services. Provided consultation to correctional and medical staff, facilitated the Psychology Services module of the Admissions & Orientation Program for designated inmates, provided in-service trainings for staff, managed the institution's Suicide Prevention Program, and served as a panel member for pre-employment interviews for the institution.

Clinical Supervisor: Rebecca Delgado, Psy.D.

- 2012      **Clinical Practicum. St. Christopher's Addiction Wellness Center.**  
Conducted intake evaluations of new admissions presenting for detoxification and/or residential addictions treatment and communicated with insurance companies regarding reimbursement for treatment services. Co-facilitated daily 12-step group therapy for residential treatment patients.  
Clinical Supervisors: Arlene Magee-Gann, LPC; Amy L. Copeland, Ph.D., M.P.
- 2011 – 2013      **Clinical Practicum. Louisiana State University Psychological Services Center.**  
Conducted intake evaluations, administered psychological tests, wrote comprehensive reports, and provided individual therapy for students and community members with various psychological disorders. Conducted alcohol assessments and implemented brief motivational interventions (BASICS; CHOICES) for mandated high-risk college student drinkers referred due to violation of university policies on alcohol use.  
Clinical Supervisor: Amy L. Copeland, Ph.D., M.P.
- 2010 – 2012      **Clinical Practicum. Earl K. Long Medical Center, Louisiana State University Health Sciences Center.**  
Conducted outpatient psychological assessments and inpatient consultations upon physician referral. Wrote comprehensive reports for specialty medical treatment teams and provided individual therapy for patients with various mental health conditions.  
Clinical Supervisor: Glenn N. Jones, Ph.D., M.P.
- 2010 – 2012      **Clinical Practicum. Louisiana State University Mid-City Clinic, Louisiana State University Health Sciences Center.**  
Conducted psychological assessments and provided individual therapy for patients presenting for early-intervention HIV treatment. Screened patients for HIV dementia and various mental health conditions, assessed patient competence and suicidal/homicidal risk, and constructed treatment plans as part of the integrated HIV treatment team.  
Clinical Supervisor: Glenn N. Jones, Ph.D., M.P.
- 2009 – 2011      **Clinical Practicum. Anxiety and Addictive Behaviors Clinic, Louisiana State University Psychological Services Center.**  
Conducted intake evaluations, wrote comprehensive reports, and provided individual therapy for students and community members with anxiety and/or addiction-related issues. Facilitated a weekly substance use disorder group for victims displaced to Baton Rouge by Hurricane Katrina through Neighbor's Keeper, a non-profit organization that works with the Capital Area Alliance for the Homeless.  
Clinical Supervisor: Amy L. Copeland, Ph.D., M.P.
- 2009      **Youth Care Worker. Hawthorn Heights, Mountain Youth Resources.**  
Hawthorn Heights is an emergency residential care and treatment center for adolescents in need of short-term, out-of-home care for either protection, planning, crisis intervention, family conflict resolution, and/or behavior stabilization. Supervised residents, implemented behavior modification program, and provided assistance in goal-setting, communication, and decision making skills for residents. Facilitated weekly group therapy which focused on providing residents with appropriate coping, communication, and emotion regulation strategies.  
Clinical Supervisor: Erika Geary, MSW, LCSW

- 2008 – 2009     **Clinical Research Assistant. Buncombe County Detention Facility.**  
 Conducted routine clinical assessments of county jail inmates screened to be at high-risk for substance dependence to address co-occurring mental conditions and identify those in need of case management services.  
 Clinical Supervisor: Norman G. Hoffmann, Ph.D.
- 2008     **Clinical Practicum. Charles George VA Medical Center, Veterans Health Administration, U.S. Department of Veterans Affairs.**  
 Primary clinical training rotations included *Inpatient Psychiatry* and *Primary Care Mental Health Integration*. Conducted outpatient intake interviews for Veterans referred by primary care, participated in inpatient medical rounds, and administered a full battery of psychological tests for Veterans admitted to the inpatient unit. Assessments included measures of intelligence, achievement, personality, memory, and neuropsychological functioning.  
 Clinical Supervisors: Arthur Horn, Ph.D.; Geoffrey Urbaniak, Ph.D.
