FRIDAY, NOVEMBER 9, 2018

#100 - Diode Laser Certification

This course has a 1-day fee of Dentist: \$595.00, Staff Member: \$495.00

In this hands-on diode laser certification program you will learn the adjunctive use of lasers as an essential element in periodontal therapy and for optimum recall management. Working with simulation exercises, this dynamic workshop is designed to build confidence and clinical understanding in the delivery of periodontal treatment protocols by using Diode lasers. Join us in this dynamic hands-on clinical workshop.

TOPICS TO INCLUDE IN THIS DYNAMIC HANDS-ON CLINICAL WORKSHOP:

- Fundamentals of laser science:
- Thermal disinfection
- Treatments of gingivitis, chronic, and aggressive periodontitis.
- Laser sulcular debridement, initiated and bare fiber applications

Friday, November 9, 2018 8:00 AM - 5:00 PM Credits: 8.00

#101 - California Infection Control & OSHA Update

Jonathan Rudin, DDS, MS

This course has no additional fee.

Friday, November 9, 2018 8:15 AM - 11:15 AM Credits: 3.00

#102 - Dental Insurance Billing and Coding Certification

Rebecca Gerber

This course has a 1-day fee of

Dentist: \$399.00, Staff Member: \$299.00

Having properly trained staff is vital for the success of the practice. This is especially true when it comes

to the insurance billing and coding system in the office. Since many dentists depend on third party payers as a revenue source, it is essential for the Insurance biller to know proper procedures and protocols.

Submitting dental insurance claims properly from the beginning, can have a positive impact on cash flow, and the marketing of the practice. It is also important for the biller to understand the contract language used by most dental carriers.

IN THIS COURSE PARTICIPANTS WILL LEARN HOW TO:

- Obtain Information from the Patient
- Generate & Interpret Aging Reports
- Communicate Insurance Benefits to Patients
- Interpret Explanations of Benefits
- Verify Coverage through Several Different Sources
- Use the current CDT Manual
- Record Payments in your Software System
- Course Handouts
- Complete the Claim Form Including Documentation
- Make Proper Adjustments
- Electronically Send Narratives and Attachments
- Follow Up on Unpaid Claims

PARTICIPATION:

This course is for anyone who wants to master the Insurance Billing and Coding system in the dental practice. This course is geared to the Doctor, Office Manager, and Clinical Staff. Successful reimbursement is highly dependent on the Doctor's input into the coding process and the staff's knowledge of billing procedures.

MORNING SESSION WILL FOCUS ON:

- Communicating Insurance Benefits to Patients
- Types of Insurances
- Follow up and Insurance Aging Reports
- Insurance Terminology
- Verifying Benefits
- Treatment Planning

AFTERNOON SESSION INCLUDES:

- How to interpret Explanations of Benefits
- How to post payments
- At the end there will be a "Hands on Workshop"
- How to make adjustments .

Friday, November 9, 2018 8:00 AM - 5:00 PM Credits: 8.00

#103 - Bullseye - Shooting the Perfect X-Ray

Janet Simpson

This course has no additional fee.

Many dental practices have grown accustomed to poor diagnostic quality images. They seem to be resigned to foreshortening, cone cuts and closed contacts. There are even a few who just accept mandibular molar images without apices as if that's as good as it gets. Let's face it, there are significant differences between wired digital sensors and film. This class will provide perspective, information, tips and tricks the attendee can use in clinical practice to improve the diagnostic quality of their radiographs.

Learning Objectives:

- Understand how the differences between wired sensors and Traditional film affect the diagnostic quality of your images. Review the paralleling and bisecting techniques
- Convert the principles of shadow casting into useful skills to capture apices, open contacts and acquire images that are hard to reach. Understanding of Radiation safety.

Friday, November 9, 2018 8:00 AM - 11:30 AM Credits: 3.50

#104 - Diagnosis and Management of Common Oral Soft and Hard Tissue Lesions

J. Craig Whitt, DDS, MS, MBA

This course has no additional fee.

Dr. Whitt will discuss the clinical and/or radiographic differential diagnosis and management of a variety of common hard and soft tissue lesions. Be sure to bring your smart phone / wireless device to participate in the anonymous audience polling. The goals of the presentation include: develop a differential diagnosis for radiolucent and mixed density/radiopaque lesions, mucosal and soft tissue lesions and to describe the management of oral and maxillofacial soft and hard tissue lesions.

Friday, November 9, 2018 8:00 AM - 11:30 AM Credits: 3.50

#105 - Neuromodulators (Botox, Dysport, Xeomin) in your practice:

SEE FULL CLASS DESCRIPTION ON BACK PAGE

This course has a 1-day fee of Dentist: \$1499 Includes 1 Staff Member

Friday, November 9, 2018 8:00 AM - 5:00 PM Credits: 8.00

#106 - Protect Your Patients and Practice from Prions, Viruses, and Systemic Disease

William Nordquist DMD MS

This course has no additional fee.

Recent studies are now pointing toward herpesviruses as an extremely important component of periodontal disease, as well as, Alzheimer's disease. Similar, if not, identical folded-over prions implicated in Creutzfeldt-Jakob disease (CJD) and "mad cow disease" [bovine spongiform encephalopathy (BSE)] are also the hallmark of Alzheimer's Disease and diabetes. To exacerbate an already complicated biofilm mixture, oral

spirochetes are reported to be the predominate active bacterial constituent encased within Beta Amyloid(A β) in Alzheimer's disease & diabetes.

Friday, November 9, 2018 8:00 AM - 11:30 AM Credits: 3.50

#107 - Because Words Matter: Making your patients comfortable & your practice profitable with words, not drugs.

Juan Acosta, Hypnodontist

This course has no additional fee.

Learn simple hypnotic techniques to help your patients relax, make sound decisions about their treatment, and enjoy their visit so much that they will spread the word. The techniques you'll walk away with will increase customer satisfaction and retention at your practice, improve your case acceptance numbers and reduce the number of no-shows and cancellations. Join us!

Friday, November 9, 2018 3:00 PM - 5:00 PM Credits: 2.00

#201- California Dental Practice Act

Friday, November 9, 2018

12:30 PM - 2:30 PM

Credits: 2.00

This course has no additional fee.

#202 - Create Experiences Worth Sharing: How to Simply Boost Patient Experience and Maximize Practice Growth

Ryan Vet

This course has no additional fee.

The landscape in dentistry is drastically changing. It is more important than ever to stand out to your patients and create an experience worth sharing. In this course, attendees will explore ways to boost patient satisfaction with simple, easy-to-apply customer service and marketing strategies. Additionally, attendees will explore effective communication and time management techniques for optimal patient satisfaction. With these tools, you will discover exciting ways to radically grow your patient base without breaking the bank.

Learning Objectives:

- create, implement and measure effectiveness of patient experience initiatives
- design, deploy and measure impact of cost-effective marketing campaigns
- use positive patient experience to ultimately grow your practice

Ryan Vet is an innovative leader, entrepreneur and author. He has presented to audiences around the globe on four different continents on leadership, marketing and reaching your maximum potential.

Friday, November 9, 2018

12:30 PM - 2:30 PM

Credits: 2.00

#203 - Pain, pain go away! Don't come back another day!

Tim George

This course has no additional fee.

Why do I hurt? Why am I not sleeping as much as I used to? Why does it hurt to do my job? These are some of the questions Egoscue deals with on a daily basis as we attempt to help a client restore their life back to normal. Chronic pain is no fun and neither is the aging process if your body is letting you down. The fix is easy if you give it a chance and you will experience it during the workshop.

Friday, November 9, 2018

12:30 PM - 2:30 PM

Credits: 2.00

#204 - Oral Hygiene: In Clinical Practice and Compliance

Dr. Rajiv Saini

This course has no additional fee.

Periodontal disease including gingivitis and periodontitis is a plaque biofilm-induced inflammatory condition affecting tooth-supporting tissues and bone, and it is among humanity's most common diseases affecting up to 90% of the adult population worldwide. Periodontal disease is also closely associated with non-communicable diseases and represents a major global oral disease burden with significant social, economic and health-system impacts.

Dentistry has experienced the greatest era in its history over the last 30 years. The mouth acts as a window to lot of systemic diseases and serves as a port of entry of the various infections that can alter and affect the immune status of the person. The oral cavity has the potential to harbour at least 600 different bacterial species, and in any given patient, more than 150 species may be present, surfaces of teeth can have as billion bacteria in its attached bacterial plaque. Periodontal diseases are recognized as infectious processes that require bacterial presence and a host response which are further affected and modified by other local, environmental, and genetic factors.

The oral cavity works as a continuous source of infectious agents, and its condition often reflects the progression of systemic pathologies. Periodontal infection happens to serve as a bacterial reservoir that may exacerbate systemic diseases. The objectives are to remove plaque or interfere with its formation to prevent it from becoming pathogenic, at least at 48-hourly intervals, and to deliver chemotherapeutic agents. The shortcoming of this protocol is that the protocol is not followed rigorously that gave the niche for bacteria to grow and accumulate as calculus. The primary goal of any dental hygiene routine is the prevention of the oral health problems caused by the build-up of microbial plaque.

Poor oral hygiene allows the continuous accumulation of acid producing bacteria on the surface of the teeth that demineralise the tooth enamel causing tooth decay and infect the gums causing periodontitis. Oral-systemic health has become a movement and next generation dentist will be recognized with the term "Oral Physician".

Friday, November 9, 2018

12:30 PM - 2:30 PM

Credits: 2.00

#205 - How to Master Long lasting Composite Restorations with Uvener System

Dr. Sigal Jacobson

This course has no additional fee.

In this course participants will learn:

- Composite vs porcelain veneers.
- Closing of diastema with composite
- Making custom shade guides
- Why Value is the most important parameter Shade selection steps.
- Ways to avoid direct veneer failures, discoloration and chips
- Indications and right case selection
- Smile design rules Resin Composite optics.
- Uvener, tips and tricks from the inventor.
- Prep guidelines for direct veneers achieving perfect contour & final gloss using a unique template system
- How to create mock-ups, manage diastema closure, class IV, fractured tooth
- Clinical cases and live videos

Friday, November 9, 2018 1:00 PM - 5:00PM Credits: 4.00

#301- CPR Certified

CPR Instructor

Price: Admission + \$20.00

Friday, November 9, 2018 3:00 PM - 6:00 PM Credits: 3.00

#302 - Front Office Boot Camp

Kathy Dennis

This course has no additional fee.

The purpose of this lecture is to increase patient acceptance in your office. Attendees will learn how to maximize your insurances with today's billing techniques. We will discuss the best practices in dealing with HMO & PPO insurances.

LEARNING OBJECTIVES:

- RESTORATIVE CODING
- PREVENTIVE CODING
- CROWN CODING
- ONLAY CODING
- MISSED CODES
- DUAL INSURANCES
- RECALL CODING AND INSURANCE PAYMENT LAWS

Friday, November 9, 2018 3:00 PM - 5:00 PM Credits: 2.00

#303 - Oxygen: The key to the oral systemic link and case acceptance.

(Elizabeth) Liz Nies, RDH BS

This course will offer insight and tools to the clinician to integrate the patients personal/family medical histories creating understanding of the oral systemic link. Predisposition to medical diseases is a powerful tool in assisting patients in saying yes to the treatment you recommended. While antibiotics have their place in fighting disease, the superbugs and their resistance to them is frightening. Oxygen is the key to life and the end of life to obligate anaerobe bacteria. Antimicrobials deliver oxygen in a safe way that is natural to the body and therefore are a better choice. When patients refuse treatment is it really because what it cost? Or is it simply we didn't create the value of the treatment for them to accept it? Is it ethical not to talk about treatment to a patient because of the cost and our concerns that they can't afford it? **Four Objectives:**

1. Learn the key educational words and the importance of silence for case acceptance.
2. Recognize the three limitations of antibiotic therapy
3. Understand the benefits of hydrogen peroxide for periodontal therapy
4. Discuss ways to present treatment plans with confidence and integrity

Friday, November 9, 2018 3:00 PM - 5:00 PM Credits: 2.00

#304 - The Dentist's Role in Treating Snoring and Obstructive Sleep Apnea (OSA)

Rick Mondick

Mr. Mondick has been with Distar, a corporation in the United States, since February 1997. Originally employed as Marketing Director, Mr. Mondick immediately started working to make TheraSnore® the leader in the field in treating snoring and Obstructive Sleep Apnea (OSA). During the remainder of 1997 and through October of 1998 Mr. Mondick continued to increase Distar's market share in the United States. Mr. Mondick expanded Distar's market presence through print media, tradeshow, lectures and the growing web market.

Friday, November 9, 2018 3:00 PM - 5:00 PM Credits: 2.00

400 - Diode Laser Certification

SEE FULL CLASS DESCRIPTION AT COURSE # 100

This course has a 1-day fee of Price: Dentist \$595, Staff \$495

Saturday, November 10, 2018 8:00 AM - 5:00 PM Credits: 8.00

401 - California Infection Control & OSHA Update

Jonathan Rudin, DDS, MS, MPH

This course has no additional fee.

A required course for all California licensed dental professionals,

Saturday, November 10, 2018 8:15 AM - 11:30 AM Credits: 3.00

402 - Medical Insurance Billing for Dentistry Certification

This course has a 1-day fee of Price: Dentist: \$399 Staff Member: \$299

Rebecca Gerber

Billing medical insurance can be an untapped revenue source in many dental practices, and is becoming very important in today's competitive environment. Submitting certain dental services to medical insurance carriers for medically necessary procedures, can help increase cash flow and add value to your practice. By understanding the medical coding process, your dental practice will be able to submit claims properly and obtain benefits for patients that otherwise may not accept treatment.

In this course participants will:

- Learn Responsibilities of the Team Starting with the Doctor
- Learn How to Identify Medically Billable Procedures
- Learn How to Communicate Treatment Plans to Patients
- Understand Medical Coding Guidelines for ICD-10 and CPT Procedure Codes
- Receive detailed information on Sleep Apnea, TMJ, and Cone Beam CT Scans.

Course handouts include:

- Sample Documentation Required to Support Procedures Billed
- Phone Preauthorization Scripts & Templates for Creating Inner Office Communication

Participation:

This course is geared to the Doctor, Office Manager, and Clinical Staff. Successful reimbursement is highly dependent on the Doctor's input into the coding process and the staff's knowledge of billing procedures.

Morning Session will focus on:

- Which Dental Procedures are Medically Billable
- The Importance of the Patient Health History
- Proper Documentation to Attain Reimbursement Utilizing the SOAP Format

Afternoon Session includes:

- Specifics about Sleep Apnea and TMJ Documentation
- Specifics about CT Scan Pre-authorizations
- How to fill out the Current CMS-1500 Medical Claim Form
- Looking up Proper ICD-10 and CPT Codes in Codebook
- Participants will receive a "Medical-Dental Insurance Coder's Certification".

Saturday, November 10, 2018 8:00 AM - 5:00 AM Credits: 8.00

#403 - Soft Tissue Graft failure can be prevented.

Farshid Ariz, D.M.D.

This course has no additional fee.

Soft tissue graft failure can be related to other factors, like Sleep Related Bruxism which can cause gingival recession and can be undetected in our diagnosis. We will be looking in detail why and how recessions are related to this relapse.

Using today's latest science and the knowledge we'll be learning as to what recessions and abfraction clues mean to our patients and hidden dangers like Sleep-Related Breathing Disorders (SRBDs). Understand the neurology and cause in Sleep Bruxism that leads to gingival recession. Understand what soft tissue recession and abfraction clues mean. How to prevent failure of soft tissue grafts related to Bruxism.

Saturday, November 10, 2018 8:00 AM - 11:30 AM Credits: 3.50

#404 - Hypnotize Fear/Pain Away

Juan Acosta, Hypnodontist

This course has no additional fee.

Learn 3-5 short hypnotic interventions you can use to help ease your patients' anxieties, fears, and physical and psychosomatic pains. In this interactive workshop, best selling author and hypnodontist Juan Acosta teaches participants the structure and content hypnotists use for creating lasting change and more tools they can take to their office right away and be effective.

Saturday, November 10, 2018 8:00 AM - 11:30 AM Credits: 3.50

#405 - Neuromodulators (Botox, Dysport, Xeomin)

Howard Katz BDS DDS

This course has a 1-day fee of Dentist + 1 Staff= \$1499.00

SEE FULL CLASS DESCRIPTION ON BACK PAGE

Saturday, November 10, 2018 8:00 AM - 5:00 PM Credits: 8.00

406 - "The 2019 Dental Code" PPO and HMO

Power Training Certificate

Kathy Dennis

This course has a 1-day fee of Price: Dentist: \$399 Staff Member: \$299

Learn the interworking's of insurance companies and get paid on the claim the first time. You will learn the claims process and never before billed cut codes. Learn how to maximize your insurances with today's billing techniques.

LEARNING OBJECTIVES:

- How to negotiate fees
- Crown coding
- Onlay coding
- Missed codes
- Restorative coding
- Preventive coding
- The appeals process
- Insurance payment regulations
- Standard coordination of benefits
- Differences in insurances

Saturday, November 10, 2018 8:00 AM - 5:00 PM Credits: 8.00

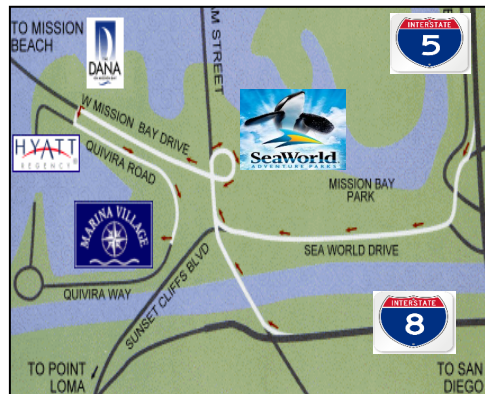

#407 - Differential Diagnosis of the Edentulous Space

J. Craig Whitt, DDS, MS, MBA

This course has no additional fee.

There are a number of clinical and radiographic lesions that are frequently associated with edentulous spaces in the jaws. A number of these lesions require no treatment. Recognition of these lesions clinically and radiographically may avoid unnecessary diagnostic surgical procedures for the patient.

Saturday, November 10, 2018 8:00 AM - 11:30 AM Credits: 3.50

FROM INTERSTATE 5:

Take the SEA WORLD DRIVE exit. From SEA WORLD DRIVE, take WEST

MISSION BAY DRIVE on your right. When you see the large green sign that says QUIVIRA ROAD, get in the farthest left of the two left turn lanes. Turn left, go one very short block and turn left again. MARINA VILLAGE will be on your right.

FROM INTERSTATE 8:

Take the WEST MISSION BAY DRIVE exit to the right. You will be on INGRAHAM STREET for a short distance from which you will take the next exit marked WEST MISSION BAY DRIVE on your right. When you see the large green sign that says QUIVIRA ROAD, get in the farthest left of the two left turn lanes. Turn left, go one very short block and turn left again. MARINA VILLAGE will be on your right.

501- California Dental Practice Act

A required course for all California licensed dental professionals, this needs to be taken every 2 years.

Saturday, November 10, 2018

This course has no additional fee.

12:30 PM - 2:30 PM Credits: 2.00

#502- Holistic Dental Care (Your Guide to Authentic Holistic Dental Care, Optimal Health and Natural Vitality)

Rev. Dr. Stephen A. Lawrence

This course has no additional fee.

Holistic Dental Care is an exciting tour of our dental health through the lens of comprehensive wellness – for our physical, emotional and spiritual body. You will learn with supplemental visuals, helpful tips and tools, an up-to-date summary of all the current holistic dental healthcare ideas and products. Learn how to stop cavities and gum disease, rebuild teeth, and positively affect patients – as we strive to spread wellness worldwide.

Learning Objectives:

1. Tips and tools to stop cavities, gum disease, and rebuild teeth.
2. Connections between your teeth and the rest of your body.
3. How to achieve and maintain optimal health and natural vitality.

Saturday, November 10, 2018

#105 or #405 - Neuromodulators (Botox, Dysport, Xeomin) Workshop **Live Patient Training*

Dentist + 1 Staff= \$1499.00

8:00 AM - 5:00 PM , Credits: 8.00

You will leave this hands-on program with the skills to identify facial muscles and implement dental therapeutic treatments that relax peri-cranial muscles also responsible facial lines. These include

TMD, migraines, tension headaches, facial pain, clenching, gummy smiles, smile asymmetries, hypersalivation, masseteric hypertrophy, tongue thrust. Selecting the course will allow your practice to implement these profitable treatments currently being sought out by your patients that do not cost

an excessive amount in equipment (\$0) and training. Learn how to profitably use all the neuromodulators on the US market at the lowest possible cost to you.

This is the same program given to specialist physicians including dermatologists and plastic surgeons.

Howard Katz BDS DDS

Dentox is an industry leader in continuing education providers with the experience and expertise necessary to provide you with the skills you need. When you tell your patients and staff you were trained by Dentox, you're telling them you were trained by one of the best. The demand for Botox is massive. Take the Botox course that gives you additional credibility. Dr. Katz was instrumental in the creation of Botox treatments – in fact, he is an inventor named on the actual patent applications for all Botulinum Toxins including Botox, Dysport, Xeomin and Myoblock.

BOTOX CERTIFICATION
