

PRODUCT DATA SHEETS

FIRST MATE –SOAP SCUM REMOVER

DESCRIPTION

This product totally removes residual soap films that even the finest soaps and shampoos leave behind. It strips hardened and embedded soap scum chemically with no hard scrubbing or mechanical assistance required. FIRST MATE restores a bright, gleaming brilliance to all surfaces including bath and shower floors, walls, doors and accessories. FIRST MATE will not harm chrome, brass or other polished metal fixtures.

FEATURES

- **NON-ABRASIVE, NON-ACID, NON-CAUSTIC AND NON-CORROSIVE**
- **RECONDITIONS SURFACES**
- **RESTORES GLEAMING BEAUTY**
- **PREVENTS SOAP SCUM BUILD UP**

USE AND DIRECTIONS

Dilute one part to three or five parts water, depending on amount and age of film to be removed.

FLOORS: Spread diluted solution liberally over area to be cleaned with mop or sprayer. Let solution remain in contact with soiled area for 10 to 30 minutes (the heavier the film, the longer the contact time). Pick up solution and lifted soils with mop or wet vacuum. Rinse with clear water. Scrubbing machine may be used, if needed, on very old, very heavy buildups.

SHOWER AND BATH WALLS, TUBS, BASINS, SINKS, DOORS: Apply diluted solution liberally with sponge or cloth, let set for several minutes, then rinse.

CAUTION: Not for use on new, polished marble or polished granite surfaces.
