

SMART AGGRESSIVE EXPERIENCED SUCCESSFUL

(505) 888-5200

LICENSED IN NEW MEXICO & CALIFORNIA

After earning his law degree, Albuquerque Attorney Robert Don Lohbeck joined the Business Litigation Group at **Sheppard, Mullin, Richter & Hampton** in Los Angeles and Newport Beach, California, one of the top corporate law firms in the United States, with over 500 attorneys.

During his time in Southern California, Mr. Lohbeck also worked and consulted for several high-profile federal and state political campaigns, and was responsible for coordinating the work of public policy research professionals, campaign workers, location scouts, and volunteers.

While in Orange County, California, Mr. Lohbeck served as Managing Partner and General Counsel for **Newport Ventures Group**, a venture capital investment firm involved in financing and consulting with high technology, bio-medical research, defense contracting, food product, real estate development, commercial construction, and other start-up companies.

After relocating to Santa Fe, New Mexico, Mr. Lohbeck joined the litigation team at the **New Mexico Risk Management Division** as Senior Counsel, where he successfully representing the State of New Mexico, and all of its departments and agencies, as well as various counties and municipalities, in a wide variety of civil lawsuits in both federal and state courts.

He was also appointed, commissioned, and served as **Special Assistant Attorney General for the State of New Mexico**.

He later served as **General Counsel for Productive Data Systems** in Albuquerque, New Mexico, and was involved in coordinating and managing demographic and legal matters related to political redistricting.

EDUCATION: LAW, SCIENCE & ENGINEERING

Albuquerque Attorney Robert Don Lohbeck earned a **Doctorate in Legal Jurisprudence in 1987 from the University of Texas at Austin School of Law**, one of the top-ranked law schools in the United States.

He was elected to the UT Board of Advocates and the Delta Theta Phi Legal Fraternity, was a founder of the Law & Technology Society, an American Jurisprudence Award recipient, and clerked with top corporate law firms in Houston, Dallas/Ft Worth, and Phoenix.

Before that, Mr. Lohbeck earned a **Bachelor of Science Degree in Civil Structural Engineering from New Mexico State University** in 1984.

He was elected to the Blue Key National Honor Society for academic excellence, the Chi Epsilon Engineering Honor Society, and was a member of Sigma Pi Fraternity. He was a General Electric Foundation Scholar and a National Civil Engineering Scholar.

Mr. Lohbeck worked in the aerospace industry for **General Dynamics Corporation** (Convair and Space Systems Division) in San Diego, and for the **United States Defense Department**.

Among other high-tech engineering projects, Mr. Lohbeck was involved in the design of the controlled nuclear magnetic fusion apparatus known as the Mirror Fusion Test Facility (MFTF), a predecessor to the National Ignition Facility (NIF), at the **Lawrence Livermore National Laboratory** in San Francisco, high-energy laser weaponry, and classified operational facilities at military bases in the

United States and Germany.

Mr. Lohbeck also worked on the structural design of the ship, ground, and Trident submarine-launched versions of the nuclear-armed **Tomahawk Cruise Missile**.
