### **SAFETY ORTS:**

There is some ammunition that has steel core. Be aware of potential back splatter / ricochet. If you see that, please stop shooting that ammo. We don't forbid steel core ammo but we recommend you don't shoot it.

Safety refresher orientation for existing members after the club meetings is ongoing. Many have already attended this (~261 out of 491 members). Be sure to make one of these sessions as this is mandatory to renew your membership in December.

Be aware of the type of ammunition that you have in your carry pistol. You are responsible for where each round goes. If you use full metal jackets bullets, remember that these travel far and go through objects. Self Defense rounds are made for this purpose.

Be aware if you approach a situation in progress with your gun. You may be considered a suspect by the police.

There is a lot going on the "gun rights" front right. Never seems to be a moment of peace. There is a lot out there at Texas Law Shield, NRA ILA, etc if you're interested

## **WHAT'S HAPPENING IN TPPC:**

Officer nominations are here. Offices up for election are: President, Operations Vice President, Secretary, and Membership Director. The current officers are NOT planning to run for re-election. Current nominees are:

Bill Thompson for President

Jack Zanger for VP Ops

Katherine Karcher for Secretary

Shelley Eubanks for Membership Director

We have purchased 2 AC units for the classroom. One of the members is going to modify the windows to install them.

We are still looking into bullet retrieval systems. This is the best option for the Club in the long run. It will eliminate the need for the sand and the routine lead mining.

You can email [texaspanhandlepistolclub@gmail.com](mailto:texaspanhandlepistolclub@gmail.com) if you have any questions. It is routinely checked by the officers.

Have you gone to the club Facebook page? TEXAS PANHANDLE PISTOL CLUB Please come and join. This will be a good way to communicate information within the club (but not the only way).
