Powers' Picks Star-Rated Plays in CFB/NFL 522-427-19 (55%) Including Post-Season! 2021 CFB Power Ratings Pg 3, Season Win Total Projections Pg 4

What a Difference a Year Makes

One year ago this week, we were living in a time of great uncertainty. Most sports including the NCAA Tournament were cancelled and there were even question marks on whether or not football would be played in the fall. Eventually, most sports restarted and completed their seasons but certainly COVID-19 impacted (directly or indirectly) all of our lives and we hope all of you are happy and healthy.

The 2020 football season was historic on two fronts. First, we had our best season ever in CFB as we went 39-22-1 (64%) including the bowl games. We were much more selective in our bets this season due to all the uncertainty surrounding COVID but it worked with great success in college. However, we will be back to more volume and higher-rated plays in 2021. On the negative side, we had by far our worst NFL season ever on these pages with an atrocious 19-32-1 best bet record in the regular season. Prior to this season we've never had a losing season in the NFL on these pages and we've never been below 56% in any season in the NFL!

Overall, you are 522-427-19 (55%) betting every single star-rated pick on these pages the last 6 years. You can see all our picks each year starting on page 9. In an industry where so many touts advertise guaranteed winners and 70-90% records, the reality is 55% is the best record by far out of any newsletter the last 6 years (see below) and the most successful bettors (ex: Billy Walters) of all time have hit only 57% over the long haul.

With that being said, we know the NCAA tournament is on most of your minds and we are offering an NCAA tournament VIP package that should be in everyone's price range (see page 5). We will have a pick on every game and also you can get Brad's bracket along with any FCS football plays through the Championship game in May.

In this issue you will find pretty much everything you need to get a jump start on college football in 2021. We have returning production, power ratings, strength of schedule ratings, season win total projections and also projected lines on every single game.

Please note that it is very early in the evaluation process and our final preseason power ratings and projections won't be completed until mid-summer. Still, we are very confident that you won't find a better set of power ratings and projections right now in the market place.

For you NFL fans, the next issue (sent April 21st) will get you all set for the upcoming NFL Draft and NFL season.

Again, our thoughts and prayers are with all of you out there. Stay safe and healthy and we hope you enjoy this issue, some spring football and the NCAA tournament.

Sincerely,

Brad Powers and Staff

Early 2021 CFB Projections

Obviously, it's early on in the CFB evaluation process but unless something drastic changes like a starting QB getting hurt or a head coach leaving, we think these are the four likely play-off teams for 2021.

1. Alabama +180 Title Odds Westgate

The Crimson Tide have to replace a ton of production on the offensive side including QB Mac Jones, Heisman Trophy winning WR DeVonta Smith and RB Najee Harris. However, Alabama brings back 9 starters on defense and just signed what many consider to be the best recruiting class of all time (SEVEN 5★'s!). Our early projections have the Crimson Tide favored in all 12 games by double-digits.

2. Clemson +450 Title Odds Westgate

Yes, the Tigers have to replace a generational QB in Trevor Lawrence and the ACC's all-time leading rusher in Travis Etienne. However, we already saw QB DJ Uiagalelei perform at a high-level and the Tigers defense returns 10 starters. Clemson opens up with one of the best Week 1 games ever vs Georgia. However, we think Clemson will be favored in that one and we project the Tigers to be at least a 17-point favorite in every ACC game.

3. Oklahoma 8/1 Title Odds Westgate

The 6-time defending Big 12 champs should have their best team since at least 2017. QB Spencer Rattler returns to lead a high-powered offense and the ever-improving OU defense welcomes back 8 starters in what could be their best D in a decade. The Sooners will be double-digit favorites in 11 of their 12 games with the only exception being a home game vs Iowa St.

4. Ohio State +450 Title Odds

The Buckeyes have more question marks than the three teams ahead of them as they only rank No. 121 in Bill Connelly's returning production rankings (see page 3). They lose QB Justin Fields but the Buckeyes have recruited as well as anyone the last couple of years. They get a key non-conference game vs Oregon at home and should be at least a TD favorite in all 12 regular season games.

7 Teams that Could make a Playoff Run

Georgia 6/1 Title Odds Westgate

The Bulldogs have one of the most talented rosters in all of CFB. Thanks to nine returning starters including QB JT Daniels, they hope to have their best offense under head coach Kirby Smart. Outside of the opener vs Clemson, we have UGA favored in their next 11 games.

Iowa State 40/1 Title Odds Westgate

Iowa St, on paper has their best team in school history. They return 18 starters led by QB Brock Purdy and RB Breece Hall and rank No. 4 in Bill Connelly's returning production. We project Iowa St to be favored in 11 of their 12 games with the only exception at Oklahoma.

Oregon 80/1 Title Odds Westgate

The two-time defending Pac-12 champs have recruited better than anyone out West the last couple of years and rank No. 9 in Bill Connelly's returning production. Currently, we project them to be favored in 11 games with the only exception at Ohio St.

Wisconsin 60/1 Title Odds Westgate

The Badgers only went 4-3 last season but we expect them to be much improved in 2021. They rank No. 14 in returning production and we project them to be favored in all 12 games although 4 are by a TD or less.

Texas A&M 40/1 Title Odds Westgate

The Aggies have more question marks than most of the contenders as they have to replace QB Kellen Mond and most of their offensive line. However, Jimbo Fisher has recruited well and we project the Aggies to be favored in 11 games.

North Carolina 60/1 Title Odds Westgate

We think the Tar Heels could be in store for a special season as they return 18 starters led by the best returning QB in CFB Sam Howell. We project the Heels to be favored in 11 games with the only exception at Notre Dame.

Cincinnati 200/1 Title Odds Westgate

If the Bearcats go 12-0 with wins over Indiana and Notre Dame (both games projected close to pick-em), we think Cincy is the first Group of 5 team to have a legit shot to make the playoff.

Alabama Ranks No. 1 in 247Sports 2021 Team Composite Recruiting Rankings

BP Sports used to do an average of all the major recruiting service rankings to come up with our own rankings. However, the 247Sports Composite rankings already does that for us. It is a proprietary algorithm that compiles recruiting rankings and ratings listed in the public domain by the major media recruiting services (ESPN, Rivals, 247, etc) creating the industry's most comprehensive and unbiased prospect and team rankings. (Total = # of signees, 5★ = # of star-rated signees).

Connelly's returning production formula looks at the most predictive key personnel stats -- the numbers that have the most impact on improvement or regression from season to season. For example, what percentage of your QBs' combined passing yardage is returning? Your offensive line snaps? Your defensive tackles for loss? **OV = Overall % of Production Returning, OFF = Offense % returning, DEF = Defense % returning.**

2021 College Football Early Strength of Schedule Ratings

Strength of schedule rankings is devised by taking the average power rating of a team's 12 opponents while also factoring in where the game is played. A.O.R. = Average opponent rating. In the below list, Stanford plays the toughest schedule while FAU plays the easiest.

2021 College Football Early Season Win Total Projections

In order to come up with a season win total projection, we take the projected spread of each game and figure out a win percentage chance for that game. If you have a 90% chance to win a game, you get credit for 0.9 of a win. If you have a 20% chance to win a game, you get credit for 0.2 of a win. When you add up the win percentages for all 12 games, you get an early season win total projection.

Below is an example for Alabama this year. The Crimson Tide will be favored in all 12 games this year and 8 of those by more than 21 points. Does that mean Alabama's season win total should be close to 12? Not when you do the correct math as you get a season win total of 11.26 for the Crimson Tide.
