

# Green and Gold

Green and gold is a great groundcover for the shaded garden. It prefers consistent moisture for optimal growing conditions. Chrysogonum blooms in the Spring and Fall and sporadically throughout summer. This groundcover provides shelter and sustenance for many birds, mammals and reptiles. Will tolerate Full sun as long as the soil is consistently moist.

**NATIVE TO  
PENNSYLVANIA**

*Chrysogonum virginianum*

- Hardiness: Zone 5-9
- Size: 6-12"
- Flower: Yellow from May sometimes through to Fall
