International Association for Identification

Courses are presented in partnership with the International Association for Identification.

ADA / Special Accomodations

To ensure we can accommodate persons with special needs who wish to attend our courses, please be sure to identify the accommodation needed when you register, or if applicable, at the time you register by phone.

Host a course

By hosting one of our courses, you will be providing your agency's personnel and the forensic professionals in your area with a high-quality training opportunity, right in your local area. This means less cost to you or your agency for expenses such as travel, lodging, and meals, and less time away from home and family. Plus, hosts can qualify for tuition savings. For more information, visit tritechtraining.com.

Logical Latent Analysis

Instructor: Mack Brazelle October 16 - 17, 2017

Tuition: \$299

Frisco Police Department 7200 Stonebrook Parkway Frisco, Texas 75034

Lodging information:

Comfort Suites, 9700 Dallas Parkway Frisco, Texas 75034

Room Rate: The room rate is \$91 + tax. This discounted rate expires October 2nd. Please mention Tri-Tech Forensics when calling for reservations to receive the special course rate. Reservation phone number is 972-668-9700.

To register, visit tritechtraining.com or contact our Training Director Phil Sanfilippo at 800.438.7884 ext. 7800 or by email at phil@tritechusa.com.

ABOUT TRITECH

A leader in the forensics market. **Tri-Tech Forensics** provides evidence collection and crime scene investigation products and training to crime labs and crime scene investigators throughout the world. With over 30 years of experience, we are the nation's most proficient developer and manufacturer of forensic kits. We are committed to providing our customers with stateof-the-art forensics products and services at affordable prices. It is our goal, through our research and development program, to continue to develop superior products and training to aid in all aspects of crime scene investigation and crime lab analysis. We know how important our products and training are to the forensics community, from investigation to prosecution, Our mission is the same as our customers - Identify. Protect. Preserve.

COURSE DESCRIPTION

Logical Latent Analysis

hen was the last time you attended a fingerprint class on analysis? Not a theoretical discussion on how to implement ACE-V or how to document your analysis. We're talking about a practical fingerprint class on how to quickly and accurately interpret the visual information found in latent prints. If you're looking for a class to sharpen your skills as an examiner and become more confident in your analysis, this is the class for you.

This two-day course of instruction will cover innovative techniques that can be employed when conducting latent print examinations.

Techniques include methods for latent orientation, detailed pattern analysis, distinguishing thumbs from fingers, creating a basic shape search, using a crease(s) for searching, delta interpretation, and much more. The instructor will use lecture, class discussion, and exercises to reinforce the techniques discussed.

It's the instructor's goal to advance the latent analysis process beyond the basic search smart tips by outlining a systematic yet practical approach to analysis. This approach known as Logical Latent Analysis can be helpful for new examiners as well as experienced examiners. This skills building course includes innovative techniques that can be employed by latent print examiners and tenprint examiners to improve their ability and efficiency.

Topics of Discussion

- Innovations in Latent Print Orientation
- Detailed Loop, Whorl, and Arch Analysis
- Innovative Techniques for Distinguishing Thumbs from Fingers
- Advanced Search Techniques, Using Basic Shapes
- Fingerprint Card Analysis
- Using Creases to Search
- New Ways to See Deltas and Cores
- Levels 2 & 3 Detail
- Palm Prints
- Interpreting Latent Print Distortion
- Outside the Pattern Area Examination
- Latent Print Shape Classification

COURSE INSTRUCTOR

MACK BRAZELLE, CLPE, CCSI

Mack Brazelle currently serves as a Fingerprint Specialist working in the Forensic Science Laboratory of the United States Treasury Inspector General for Tax Administration. He holds a Bachelor of Science degree from Mount Olive College and is recognized by the International Association for Identification (IAI) as both a Certified Latent Print Examiner and Certified Crime Scene Investigator.

Mack began his career as a law enforcement officer in North Carolina, eventually becoming Sergeant of the detective division as well as latent print examiner for the Columbus County Sheriff's Office.

During his time in law enforcement, Mack was awarded his Advanced Professional Certification from the Sheriff's Education and Training Standards Commission and became a Certified Criminal Justice Instructor for the North Carolina Department of Justice. Since 2007, he has been an adjunct instructor with the North Carolina Justice Academy, teaching both Fingerprint Classification and Comparison and Advance Latent Print Comparisons.
