8.1 Enforcing Federal Rights Against States and State Officials

<http://www.federalpracticemanual.org/chapter8/section1>

PEOPLE HAVE RIGHTS, PERSONS HAVE PRIVILEGES.

And that's because once a MAN signs up for a privilege, he becomes a PERSON. Take health club membership for example. If you're a member, you're a PERSON subject to club rules. It's the private CONTRACT that makes you a person. Without that contract, you have inalienable rights. In the contract, that contract over-rules those rights. I.e. you've become a PERSON with privileges and can't call on the Public Law (Constitution) to defend yourself, since you're in a PRIVATE contract.

Here are some such contracts: Birth Certificate, Residency status, and even engaging in COMMERCE makes you a person subject to State's Public Policy (Statutes and codes).

8.1 Enforcing Federal Rights Against States and State Officials

<http://www.federalpracticemanual.org/chapter8/section1>

GET IT? The Birth Certificate is a proof that you're a FEDERAL, 14th Amendment US citizen. Without it, you're a state Citizen, national or Inhabitant (whites are state Citizens, other colors aka races are Inhabitants). And of course getting the BC is VOLUNTARY.

"Before 1921 the records of births and names of children were entered into family bibles, as were the records of marriages and deaths. These records were readily accepted by both the family and the law as "official" records.

Since 1921 the American people have been registering the births and names of their children with the government of the state in which they are born, even though there is no federal law requiring it. The state tells you that registering your child's birth through the birth certificate serves as

proof that he/she was born in the United States , thereby making him/her a United States Citizen.”

And here's WHY:

Your birth certificate turns you into a CORPORATION on paper. That is why they get away with taxing you federally. HJR 192 passed by FDR in 1933, allowed for confiscation of gold, and the FED bought the debt of the United States Corporation. The Fed said to US CORPORATION, "what are you going to give me as collateral?" The UNITED STATES said, "here are all these 'human resources' around (US citizens), use them.'" 1933 was the first year we started paying federal income tax.
