API Q1 Essentials & Auditing Course - 5 Days

Program Overview

This course provides participants with an in-depth understanding, knowledge, and skills needed to carry out successful internal and external API Q1 audits. The latest methodologies, practices, and techniques are utilized including practical application for manufacturing and the global supply chain that supports the petroleum and natural gas industry.

This course utilizes the latest training methodologies and uses a combination of lecture, examination, and group auditing to ensure each participant is able to analyze properly, audit, document, and report findings, concerns, and observations. This course covers all of the technical requirements outlined in the specification. This course is the first in the industry that consist of conducting a full API Q1 audit, against a fully documented QMS and records management system. Throughout the audit, participants undergo observations and receive competency assessments by accredited providers and subject matter experts. Participants that complete this course will receive a unique tracking and certification number and the designation of Q1 Lead Auditor along with an unique registration number issued by WPAG.

Summary of Course Curriculum

- API Q1 Specification Body of Knowledge
