

THE TEMPLE'S TIME-FRAME

ASTRONOMICAL PATTERNS RELATED TO THE TEMPLE OF YHVH

The purpose of this chart is to present several points of interest that gives credence to the anticipated construction of the 3rd Temple. Of particular interest is that a timeline of the solar and lunar eclipse patterns will be displayed leading up to the destruction of the 2nd Temple in 70 AD. Given such astronomical and mathematical analysis of the timeframe, perhaps such patterns can be superimposed on the current Tetrad cycle of the 2014-15 Blood Moons that might reveal some possible time references directly related to when the edification of the 3rd Temple is to take place. Pentecost was the last Feast of the LORD celebrated by national Israel in 70 AD. By some calculations, it was at Pentecost during the 6 Day War of 1967 that the very Temple Mount was liberated from the Muslim occupation. If a Pentecost pattern is in effect, then perhaps at a future Pentecost, the timeframe during that period will affect the rebuilding of the 3rd Temple in some prophetic way. Nonetheless, the contraction, consecration and presentation thereof might coincide with a total different Feast. Based on the phi ratio proportion estimates, it would appear that the Passover Feast of 2016 will be extremely significant as it directly relates astronomically and geometrically to the possible affairs of the 3rd Temple. National Israel forsook the righteousness of the LORD in His commandments and thus the national Divine protection was removed. This was in the case of the 1st Temple's destruction and Diaspora on the 9th of Av to Babylon that lasted 70 years. According to Christian theology, the 2nd national judgment of Israel by the LORD at the hands of the Romans was a direct result of having rejected Jesus Christ as the long-awaited Messiah of Israel. The nation was blind-sided in not being able to and reconcile the concept of the Son of Joseph (the Servant-Lamb) with the Son of David (the Lion-King) typology of the Messiah as being one in the same and having 2 visitations. Like Joseph, Jesus was misunderstood, rejected, sold by His very brethren, falsely accused and as a type, died in the pit of a prison but GOD figuratively rose him up to rule a kingdom and save the world. This same prophetic and divine pattern is set to occur perhaps in this current generation; the Lion-King is coming.

SOME OBSERVATIONS

1. The cluster of partial solar eclipses and total Blood Moons of the timelines approximate a 7 year period. It appears that the prophetic markings of a 3.5 or 42 month, and a 7 year period that will encompass the Tribulation spoken of in Revelation and Daniel specifically has the markings of how such patterns directly were related to space and time during the destruction of the 2nd Temple. It would follow that such similar and consistent patterns of 42 months and 1260 and 2520 day cycles will be incorporated in the last generation. This coming timeline will involve the 3rd Temple, the Rapture of the Christian Church, i.e., the Body of Christ, the advent of the False Messiah Israel will accept as the famed Antichrist, the Tribulation and the Return of Jesus Christ as the Son of David, Lion King to rule the Nations from Israel for a 1000 years.
2. Based on the astronomical and phi ratio mathematical patterns, the Passover of 2016 is demarked as being extremely Biblically prophetic. Could the construction or dedication of the 3rd Temple correspond to this date that also would see the advent of the Prophet Elijah that national Israel has also been waiting for?
3. The last Feast of Moedim of YHVH that Israel observed as a nation was Pentecost. Perhaps this is in conjunction of how the Church of Messiah started and was birthed on Pentecost 50 days after His resurrection. Could such a Pentecost pattern determine when the LORD is to return and complete Daniel's last prophetic week of 7 days of years?

Based on the astronomical eclipse and phi ratio patterns of when the 2nd Temple was destroyed in 70 AD on the 9th of Av, perhaps such a similar pattern might be occurring that will dictate the rebuilding of the 3rd Temple in this generation. Many believe the Tetrad of 2014-15 has a direct link to this prognostication of Biblical proportions. If the time-frame of approximately 7 years is considered from the start of the Tetrad to the beginning of the 3rd Blood Moon cluster of 2022, the phi ratio would pinpoint the month that is extremely significant to the 3rd Temple's timing. Specifically this pinpoint corresponds to the Passover of 2016. The 'Temple Zone' encompasses the time from December of 2015 at the end of the Tetrad to the start of 2017. All the Blood Moons are in mathematical proportions to each other and in cycles of 7. Does this 7 year pattern confirm the duration of the Tribulation period that is to come in its entirety?

THE GOLDEN RATIO
The geometric 'spiral' is said to be the 'Signature of the Creator'. It is a mathematical relationship found in nature, the arts and the Human Form. It is when 2 quantities are in the golden ratio if the ratio of the sum of the quantities to the larger quantity is equal to the ratio of the larger quantity to the smaller one.

PENTECOST: Last Feast of National Israel

The last national Feast of YHVH for Israel was Pentecost. 1949 was the 1st year National Israel celebrated Passover in the Land after declaring independence in 1948 on the eve of Pentecost. A summation of 70 years from that date mirrored from 70 AD would result in the year 2019.
