

Handbook Helps

Each Bear Hug (or section) is typically 4 pages in length. The first 3 pages are pages for you to go over with your child at home. The fourth page contains all of the memorization material. In the back of your clubbers book is a CD to aid you and your clubber. There is a **track number** noted in the book to let you know where on the CD to go for each section.

1. The verse

- Each verse has a section which is bolded. Cubbies who will be moving into Kindergarten next year are required to do the complete verse (including the reference).
- Cubbies who are 2 years from being in Kindergarten are only required to say the short (or bold) portion of the verse.
- The verse is the only portion of the section which is required to be completed in order to pass the section.

2. Under the Apple Tree

- The "Under the Apple Tree" portion is in the top right. This is an optional section which you may choose to complete with your clubber at home.
- If you complete this portion, please make sure to sign it so that we know it was done. Clubbers will only get credit if this is signed off by the parent.

3. Review

- Most sections also have a review portion. This is also optional, and may be used for clubbers who need some additional challenge.
- The checkbox under this verse will need to be marked if your clubber is prepared to do this portion. If the box is not checked, then we will not attempt to have your clubber recite this portion.

PLEASE NOTE: Clubbers need to know their verse **BEFORE** coming to club each night. It is of great importance that you work with your Cubbie during the week so they are prepared, as everything we do through the club night will help to build on the verse and the theme for that unit.
