CONTROL OPTIONS

TOUCH CONTROL

A gentle pull will activate the drapery thanks to the Smart Touch Impulse technology of the motor. Standard feature.

EMERGENCY CONTROL

In case of power failure, the draperies can still be moved manually. Standard feature.

RADIO FREQUENCY

1- or 4-channel available. Can also be used as an RF wall switch.

RF Z-WAVE AUTOMATION

Wireless automation communication with data feedback and automatic routing in a mesh-network environment. Open protocol with "Scene Control". Z-Wave module needed.

SWITCH CONTROL

By using the dry contact port of the motor, you can use the Forest wall switch. Can also be RF.

INFRARED CONTROL

Infrared module with infrared remote control. Also possible to program other IR controls on the motor.

BUILDING AUTOMATION

Possible with dry contact port, by means of the relay interface of the concerned Building Automation System. Individual control per room remains possible.

HOTEL AUTOMATION

With the two RQ bus ports on the bottom of the motor it is possible to connect more motors. Can be operated centrally, in group or individually.

Detailed instructions on how to program the Forest Shuttle are available with the motor or can be found at www.forestgroup.com

The Shuttle motor is compatible with many other Building Automation and Communication systems. A competitive advantage over any other motorized drapery system in the world!
