Subject: Comprehensive Progress Report for the Ten West Link Project

DCR Transmission, LLC (DCR Transmission) is developing the Ten West Link (TWL) Transmission Project, an EHV transmission infrastructure project that connects the Delaney 500 kV substation in Arizona with the Colorado River 500 kV substation in California via a 114 to 130-mile long series compensated transmission line. The anticipated in-service date for TWL is May 2021.

Attached to this letter are the TWL Comprehensive Progress Report (CPR) and a Project Review Group (PRG) sign-up form. Only the main body of the CPR and the smaller appendices are attached. A copy of the CPR as well as all appendices to the CPR is located on the Starwood Energy Group website at www.tenwestlink.com. The CPR demonstrates that under the conditions studied, the construction and interconnection of the TWL project will increase the ratings of WECC Paths 46 and 49 by 1,050 MW and 550 MW, respectively.

In accordance with requirements of the WECC Path Rating Process, DCR Transmission requests that StS members review the CPR within 60-days (by December 16, 2018) and submit any questions or comments to Ali Amirali at AAmirali@Starwood.com and Peter Mackin petermackin@useconsulting.com. DCR Transmission will track all questions and comments received during this CPR review period and will address any questions or comments that are not resolved during the 60-day CPR review period as part of the Phase 2 studies. Upon completion of the 60-day review process, DCR Transmission requests that the TWL Project be granted Phase 2a status.

Parties interested in participating in the Phase 2 PRG for the TWL Project should complete the attached PRG registration form and return it to Ali Amirali at AAmirali@Starwood.com and Peter Mackin at petermackin@useconsulting.com by December 16, 2018. PRG members will be contacted and an initial PRG meeting will be scheduled after the TWL Project receives Phase 2a status.

Best Regards,

Ali Amirali

Ali Amirali
Senior Vice President
Starwood Energy Group

Ten West Link Project - Project Review Group Sign Up Form

I am interested in participating in the Project Review Group (PRG) for Ten West Link Transmission Line Project.

I am not interested in participating in the Ten West Link Project PRG; however, I would like to be on the e-mail distribution list for PRG correspondence.

Name: _____

Title: _____

Company: _____

Mailing Address: _____

Overnight Mailing Address: _____
(if different from above)

Telephone (Office): _____

Telephone (Cell): _____

E-mail: _____

Please return the completed form to the e-mail addresses below by December 11, 2018.
