The “**Chakra Optimization Tools**” (band and device) performs the following processes for all the energy centers (chakras) in the body.

## 1. **Unblocks Chakras**

Benefits derived from unblocking chakras may include: increased energy levels, reduced tension, lessened physical tightness, expanded awareness and enhanced energy connections. Unblocking the 3<sup>rd</sup> eye chakra can promote clairvoyance.

## 2. **Strengthens Chakra Boundaries**

Strengthening chakra boundaries prevents chakras from retaining excess energies or allowing energies to leak out. An overcharged third eye chakra can produce a headache. A depleted root chakra can lead to being

spacey or exhausted.

## 3. **Cycles Chakra Energies**

Efficiently cycling energy in and out of the chakras creates balance for the chakras and physical body.

## 4. **Re-Energizes Chakras**

Each chakra needs to re-energize itself to promote a healthy chakra system and high personal energy levels, rather than taxing another chakra by accessing its energies.

## 5. **Circulates Chakra Energies Through the Central Channel**

Chakra energy is circulated up and down the central channel of the body to connect and stabilize the chakra system.

## 6. **Trains the Chakra System**

The Chakra Optimization tools aids energy to flow

more fluidly and continuously throughout the physical body and energy systems. They allow the body to work energetically more efficiently and train the body to maintain more balance on its own.
