

In working with Mary Merkel at Kalins furniture for over 10 years, she was the one person that I could count on to problem solve anything that I needed to get done.

Whether it be accounting or problem-solving with customers, preparing reconciliations for customers or any computer problems we might encounter. Always having a friendly and positive attitude with my customers. Mary was always dependable and thorough following through to the end. Now I'm concentrating on my own small business, Designs Are Bourn and Mary is helping me with my social media.
