Promotes plant growth and provides potassium that is readily available for plant use. Suitable for all plants grown in the greenhouse, landscape, garden or commercial fields.

Seaweed powder is a plant derived product that can be applied as a foliar application or through irrigation to prevent or correct nutrient deficiencies that could limit growth and yields. For best results, apply Soluble Seaweed according to recommendations based on plant tissue or soil analysis for a given crop.

**MIXING INSTRUCTIONS:** Mix well in the desired amount of water for full coverage. Soluble Seaweed powder is compatible with most other fertilizers and plant nutrients. When mixing with other products it is recommended that a physical compatibility test be conducted before use. A test using small quantities in proportion to field application rates is recommended.

#### DIRECTONS FOR USE:

Apply 14 to 21 oz. of product per acre as a foliar application or 2-5 pounds per acre through drip irrigation. Only mix product needed for immediate application. Do not store diluted product.
